

Redmen take league championship with undefeated season

The Haliburton Highlands Secondary School Redmen won their football league championship this past week with a lopsided 37-9 win over Brock of Cannington.

The team ended the season with an undefeated record, four wins and one tie, for the first time the school has been a winner in six seasons.

The stars of the game were Larry Stinson, who scored three touchdowns and Steve Davies, who added two more. For more details see County Echo Sports.

Warden thankful for support he has received during term

Haliburton - Bob Vick, the warden of Haliburton County was honored at the annual Warden's Banquet held Saturday night at the Haliburton Legion.

Speaking to the people at the banquet, Warden Vick, the reeve of Snowdon Township, said that he is thankful for the support he received from the county staff and the

county council during the year.

Master of ceremonies for the event was Dysart et al reeve, Murray Fearney, a past warden of the county.

He told those at the dinner how difficult the warden's job is and the honor it is to be warden of the county.

Immediate past warden, Jerry Howarth, of the Im-

provement District of Bicroft said that being warden is a rewarding year. He added that it gives a person the opportunity to learn a great deal about the other municipalities in the county.

Mr. Howarth commented on the proposed official plan for the county, and said that he is pleased that the county representatives have seen fit to have a plan.

"It is important for our county," Mr. Howarth added. "He said they hopefully the plan does not get washed out somewhere along the line."

Anson, Hindon and Minden Reeve, Reg Booth, introduced the past wardens at the banquet and asked for a moments silence for the late Ted Peacock, who was a warden of the county.

Roy Brohm, a councillor in Dysart et al, and warden of the county during Canada's Centennial year, commented on the work done by Mr. Vick for the county.

He jokingly said, "Bob keeps the railway running in the daytime and the county and Snowdon Township running at night."

Government report

Acid rainfall harms fish

Haliburton - The Ministry of Natural Resources admits that although acid rainfall poses no threat to human health it may have adverse effects on soil and vegetation and it is possible for high levels of acidity in precipitation to make some lakes unfit for some aquatic life, including fish.

The release from the ministry was received by The Echo and Recorder after the Toronto Star published a story noting that "The Muskoka and Haliburton resort areas are facing a severe environmental problem that is caused by acid rain and air pollution."

The ministry release stated "The Ontario Ministry of Environment has released the results of preliminary investigations into the effect of precipitation carrying elevated levels of acidity on lakes and rivers in south-central Ontario in an area east of Georgian Bay, south of Lake Nipissing, north of Lake Simcoe and west of the Ottawa River."

The study is part of an Ontario government program begun in 1975 to assess the impact of development in recreational areas. Preliminary data collected in the past 18 months indicate possible damage to the aquatic life in the study area from precipitation.

"Evidence indicates that acid precipitation poses no threat to human health but may have some adverse effect on soil and vegetation. It is possible for high levels of acidity in precipitation to make some lakes unfit for some forms of aquatic life, including fish," the release said.

It noted that while precipitation is normally slightly acidic due to carbon dioxide in the atmosphere, data from the study area show increased levels of acidity due mainly to airborne sulphur oxides.

Acid rainfall is a worldwide phenomenon and is widespread in North America as a result of nitric and sulphur oxides, by-products of the combustion of most fossil-fuels and some smelting, reacting with the moisture in the atmosphere to form acid, the release explained.

"Current acid loadings to lakes in south-central Ontario pose a long-term serious environmental threat," said Dr. Tom Brydges of the Ministry's Water Resources Branch which produced the

report. Dr. Brydges said his staff will continue monitoring the effect of acid rainfall on 15 lakes from the study area. "Unlike lakes to the south including the Great Lakes, these waters are not underlain by soluble bedrock which acts as a buffering agent

counteracting the acidification process."

The report does not identify the direct sources of the acidic precipitation. The major industrial urban areas to the south and southwest of the study area, in both Canada and the United States

are sources of nitrogen and sulphur oxides. Smelting operations located north and northeast of the study area are major sources of sulphur dioxide. Further studies are under way to determine prin-

See page 3

Scott and Eakins congratulate Vick

Haliburton - Bill Scott, Member of Parliament and John Eakins, Member of Provincial Parliament, were among the many people at the annual Haliburton County Warden's banquet to offer their congratulations to Bob Vick.

The banquet was held last Saturday night at the Haliburton Legion.

MP Scott said he is a long time friend of Mr. Vicks and noted that Bob helped introduce him to politics.

MP Scott said that Haliburton County and its representatives have a reputation for being aggressive. He was a member of Haliburton County Council in 1965.

MPP Eakins said that he has had many happy associations in Haliburton.

"You can be very proud of the representation you have had in Haliburton County this year," he said speaking about Mr. Vick.

He said that the county representatives in Haliburton have the opportunity to show their leadership and keep the country strong.

Wardens speak at annual county dinner

Haliburton - Two neighboring county wardens were guest speakers at the annual Haliburton County Warden's Banquet.

The banquet was held Saturday night at the Haliburton Legion.

Doris Winchester, warden of Victoria County, said that she is happy that Haliburton is one of Victoria's neighbors. She added that there is a great future in all of the

See page 14

Jennifer, 5, and Matthew Brydon, 3, were among the many youngsters who were out on Hallowe'en on Monday night. The Brydon youngsters found the trick or treating to their liking and came home with a couple of bags full of treats.

Reeve wants to save money when clerk hired

Minden - Anson, Hindon and Minden will be trying to save some money when a new clerk is chosen today at the council meeting.

Reeve, Reg Booth said he hopes to save some money with the hiring of a new clerk-treasurer for the municipality.

He pointed out that the position is for clerk-treasurer, not clerk-administrator as it was before. Mr. Booth said he is hoping that some of the administrative work goes back to the council "where it belongs."

The new clerk-treasurer or deputy clerk-treasurer will be hired today. Reeve Booth pointed out that the council

has been looking for a person to fill either position.

Reeve Booth said that there have been a number of applications for the job and that the council has spent a great deal of time considering

who would be best for the position.

The clerk's job was left vacant by the resignation of Richard Parisotto last month. Mr. Parisotto is now deputy clerk for the Town of Ajax.

Fire at lodge

Gooderham - The Minden detachment of the Ontario Provincial Police is investigating a fire which took place at Mountain View Lodge in Gooderham early Saturday morning.

According to Bill McCullough, the owner of the lodge, the fire destroyed the garage

and contents, burnt the south end of the building, an upstairs hall and bedroom and caused damage to the kitchen.

He said there was also smoke and water damage. He said the damages have not been estimated yet.

Among the special guests at the annual Warden's Banquet were Bob Vick's grandchildren. With Warden Vick are Stacey, 2-1/2 and Sean, 6. The annual Warden's Banquet was held Saturday night at the Haliburton Legion.

Three-year-old involved in two vehicle accident

Haliburton - A three-year-old Ajax youngsters first attempts at handling an automobile ended in failure Sunday when he was involved in an accident.

The Minden detachment of the Ontario Provincial Police report that Shawn Henderson got in a pick-up truck parked on a private drive on Sunnyside Street in Haliburton and managed to put the truck's gear shift into neutral, causing the vehicle to roll across the street into a parked truck.

There was \$100 damage to the truck owned by Loyne Henderson of Ajax and \$300 damage to a truck owned by Grant Scheffee of Haliburton. The boy was not injured.

The accident took place at 11:50 a.m.

Minden OPP investigate six vehicle crashes

Minden - Members of the Ontario Provincial Police investigated six motor vehicle accidents during the week of Oct. 24 to 30.

A two car crash Oct. 29 on Kennaway Lake Road resulted in a total of \$600 damage. The OPP report that cars driven by William Mitchison, 29, of Markham and Peter Tsachoff, 20, of Scarborough,

collided at the crest of a hill. There was \$400 damage to the Mitchison vehicle.

A single car accident on Highway 121, near Haliburton Village, Oct. 29, resulted in \$900 damage to a car driven by Timothy O'Rourke, 18, of Peterborough.

The OPP report that the vehicle was westbound when it went out of control and entered the north ditch.

O'Rourke has been charged with impaired driving.

There was \$300 damage to a car driven by Henry Howe, 75, of R.R. 1, Haliburton, when it was involved in an accident with a truck driven by George Foster, 64, of Haliburton.

Foster has been charged with failing to yield. The accident took place Oct. 24 in Haliburton Village.

JET program is underway

Haliburton - The Canada Manpower Job Experience Training Program got underway yesterday morning at the Haliburton Outreach Centre.

There are 20 participants in the program in Haliburton between the ages of 15 and 19 who recently left secondary school and have been looking for a job unsuccessfully for at least three months.

The program requires that

employers provide up to nine weeks of employment for the workers with the prospect of permanent employment.

The participants' wages during the probationary period, up to the nine weeks, will be subsidized 50 per cent to a maximum of \$600.

Employers' interested in participating are asked to contact the manpower office in Haliburton.

Ice on hill causes accident

Haliburton - The warm weather over the past few days would make it hard to believe that ice on a road would cause an accident but it did on Highway 121 Monday morning.

Hallowe'en is quiet

Hallowe'en proved quiet for the Coboconk and Minden detachments of the Ontario Provincial Police.

The Coboconk detachment report only one incident, a door being painted red and the Minden detachment report that one person complained about eggs being thrown at his car.

The Minden detachment of the Ontario Provincial Police report that ice caused a car driven by Donna Lorrain Andrews, 31, of Haliburton, to go out of control and crash on the Dover Springs Hill.

The accident took place at about 9:45 a.m. and caused about \$2,500 damage to the automobile.

The driver complained of minor injuries.

One day seminar on safety

The Forest Products Accident Prevention Association will be holding a one day seminar on chainsaw and skidder safety Nov. 18 at the Frost Research Centre.

The seminar will include filing, notching and felling sessions conducted by Len Woito, district representative of area 1 and personal protective equipment by James D. Nugent, general manager of FPAPA.

There will be a morning classroom session and an afternoon bush demonstration.

Coffee will be served but those attending will be required to pay for the dinner.

Registration is free at the door and transportation to the bush will be supplied by the Ministry of Natural Resources.

\$76 raised for fire victim

Haliburton - A total of \$76 was raised for Mrs. Clifford Reil of Gooderham, a widow who was burned out recently.

The money was raised at the regular Legion Bingo. Harry Cowan of the bingo committee said that they would like to thank all of the bingo players for participating.

TWO NEW CANADA SAVINGS BONDS

A GREAT CHOICE

This year, Canada Savings Bonds offer you a great choice. There's a new Regular Interest Bond that pays interest each year. And a new Compound Interest Bond that re-invests your interest automatically, earning interest on your interest.

SAFETY, INSTANT CASH AND A GOOD RETURN

Both new bonds retain the great features that have helped to make Canada Savings Bonds the favourite investment for millions of Canadians over the past 31 years. They're a safe, secure investment. They're instant cash anytime. And they earn good interest — year after year.

New Canada Savings Bonds are dated November 1, 1977 and yield an average annual interest of 8.06% when held to maturity in 1986. Each new bond begins with 7% interest the first year and earns 8.25% interest for each of the remaining 8 years.

REGULAR INTEREST BOND

If you want a regular annual income from your investment, you'll like the new Regular Interest Bond which pays interest automatically each Nov. 1st. You have the choice of receiving your interest either by cheque or by direct deposit into your chequing or savings account. This new direct deposit feature is an added convenience for you.

You can buy the Regular Interest Bond for cash wherever you bank or invest in denominations of \$300, \$500, \$1,000 and \$5,000.

COMPOUND INTEREST BOND

If you seek savings growth, or an investment for the future, or a retirement fund, you'll choose the new

Compound Interest Bond. After the first year you will earn interest on your interest at the annual rate of 8.06%. Interest on this bond is left to accumulate and is payable only upon redemption or at maturity.

Here's how the value of a \$100 bond grows:

Nov. 1 Value	Nov. 1 Value
1978 \$107.00	1983 \$158.78
1979 \$115.81	1984 \$171.77
1980 \$125.34	1985 \$185.81
1981 \$135.63	1986 \$200.97
1982 \$146.76	

The Compound Interest Bond may be purchased for cash or on the convenient Monthly Savings Plan wherever you bank or invest. It is available in denominations of \$100, \$300, \$500, \$1,000 and \$5,000.

THE CHOICE IS YOURS

As you can see, new Canada Savings Bonds offer you a great choice — the Regular Interest Bond and the Compound Interest Bond. Both new bonds are on sale now up to a combined total purchase limit of \$15,000. They have been specifically designed to meet your savings goals. Choose the one that's right for you.

"WHERE SERVICE IS A FACT! NOT A PROMISE!"
HALIBURTON 457-1402

The Ministry of Natural Resources had a crew out last week to poison the water in Little Gull Lake, south of Minden. The idea of poisoning the water is to kill a "poor crop of bass" in the lake to

enable the Ministry workers to stock the lake next year with rainbow trout. The operation is done with the approval of the cottagers on the lake.

Poisoning lake will mean better fishing

Minden - Little Gull Lake will likely have 3,000 rainbow trout swimming around in it next year if all goes as planned by the local office of the Ministry of Natural Resources.

Last Wednesday crews from Natural Resources were out on the lake putting a poison in the water to kill what has been called a poor crop of bass in the lake.

Little Gull Lake is located south of Minden.

Steve Toole, of the Ministry, told The Echo and Recorder that the poison used is called Rotenone which is a naturally occurring compound from the root of the Derris plant in the Amazon Jungle.

He said that the poison

attacks the filaments in the fish, causing them to swell and not letting the fish breathe.

Mr. Toole said that the poison hopefully will kill all of the fish in the lake. He noted that it also does some damage to insects but because of the time of year there would be few harmed.

The poison being biodegradable, will be out of the lake within six weeks and because of the low water level there is no danger of the poison going into other bodies of water.

Mr. Toole said the fish either float up on shore or go to the bottom when they die. He added that the fish that come up on shore generally are cleaned up quickly by

raccoons, bears and other animals.

He said that the lake has a very poor quality population of largemouth, small mouth bass and sunfish.

The rainbows that will be stocked in the lake next spring are not expected to reproduce and the ministry will have to stock it every two

years to keep the population up.

The fish that will be stocked will be six to nine inches in length and Mr. Toole said well worth fishing by 1979.

The decision to poison the lake was made after talking to the cottagers and landowners on the lake.

Four charged

Gooderham - Four persons have been charged with mischief and trespassing in connection with an incident in Gooderham October 30.

The Minden detachment of the Ontario Provincial Police report that there was \$50

damage to a house owned by Robert Vaughan of Gooderham.

Charged are Gary James Travis, David Scott Blakey, Richard David James Mathieu and Edward Arnold Dewey, all of Gooderham.

Obituary

Franklin Joseph (Buzz) Hodgson

The community was saddened last week to learn of the passing of Franklin Joseph (Buzz) Hodgson at the Sunnybrook Hospital in Toronto, on Tuesday, October 25, 1977. The late Buzz Hodgson, who received his education in Haliburton, later moved to Lindsay where he was employed and his love for the game of softball made him one of the best softball pitchers in the town of Lindsay. He had just recently moved to Peterborough, into a new home, at the time of his death.

Buzz Hodgson was in his 42nd year. Beloved husband of Colleen Kemp of Peterborough... Dear father of Wendy (Mrs. Robert Snook) of Lindsay and Joseph at home. Loving son of Mrs. Udine Hodgson of Haliburton and the late Frank Hodgson. Dear brother of Betty and loving grandson of Mrs. Mae Parker both of Haliburton. Rested at the Mackey Funeral Home, Peel St., Lindsay, for service in the chapel on Friday, Oct. 28 at 1 p.m. Interment Evergreen Cemetery, Haliburton.

Windows broken

Haliburton - Members of the Minden detachment of the Ontario Provincial Police are investigating damage done to windows at Cliff Dawson Insurance, Brohm and Leighton Real Estate and the gas pumps at Elstone Motors.

The police report that the windows were likely broken by a sling shot.

The incident took place sometime between 6 p.m. Saturday and 9 a.m. Monday morning.

Charged with mischief is Bill Roberts of Haliburton.

Acid pollution

Haliburton County Council has asked that the Ministry of Environment supply a detailed analysis of a report on acid rain and air pollution in Haliburton and other cottage areas.

The county passed a resolution last week asking for the report, and requested that a representative of the ministry attend a county council meeting to inform the county of the nature and the extent of the pollution.

The results of the report were published in the Toronto Star, Oct. 21, and it was noted that "The Muskoka and Haliburton resort areas are facing a severe environmental problem caused by acid rain and air pollution."

Acid report

From page 1

cial sources. "The pathways of airborne contamination are not as clearly defined as those of rivers which carry waterborne pollution," said Dr. Sam Stevens of the Ministry's Air Resources Branch. "Air masses are extremely mobile and unpredictable and undergo complex chemical reactions, all of which make the job of determining the sources extremely difficult."

Activities of a related ongoing program, known as the Sudbury Environmental Study, include the evaluation of the environmental impact of industrial emissions as well as the further development of techniques to restore aquatic life in lakes now affected by acidity, it said in the release.

In Haliburton County Council

INCUBATOR

Haliburton County Council agreed to grant \$100 to the Minden Ambulance Corporation towards the purchase of portable incubation equipment. The equipment is to be used by the Minden and Haliburton ambulances when required.

NO BONUS

Council concurred with a resolution from the Township of Charlottenburgh objecting to bilingual bonuses relative to employees. Registered votes against were Sinclair Nesbitt and Pat Conaghan.

WOLF BOUNTY

County council passed a resolution to pay a bounty on wolves of \$25 subject to verification to Victoria and Hastings Counties.

All wolves trapped in Haliburton County only are eligible and the fee is payable by signing an affidavit and producing the carcass.

Drop-in Centre opened

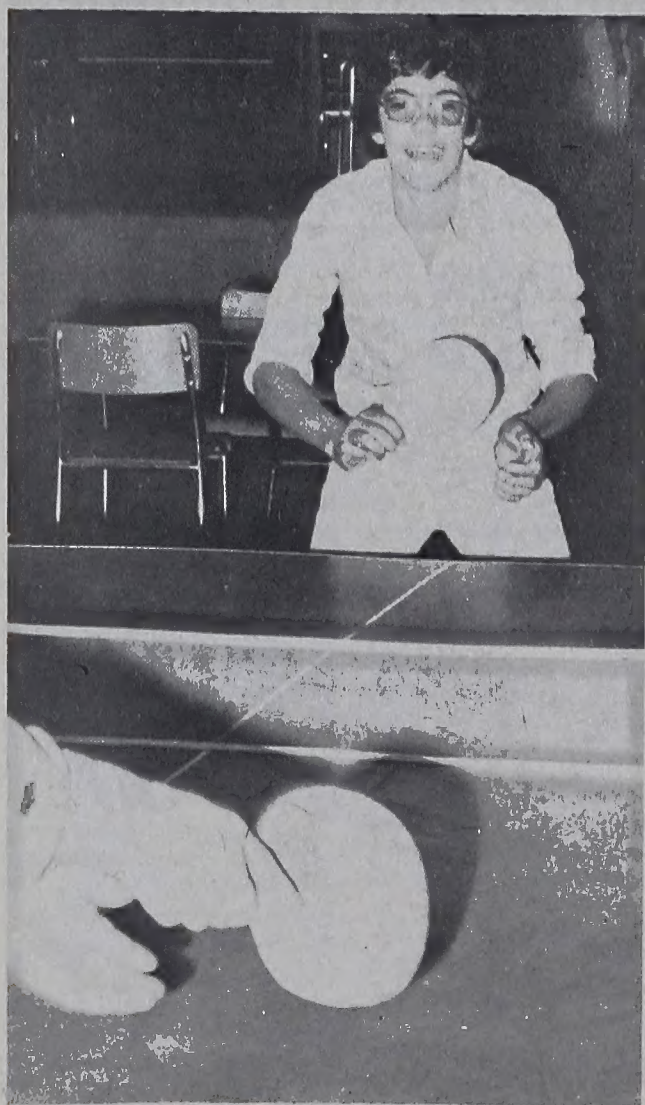

Haliburton - Last Friday night councillor Gary McKnight cut the ribbon to open the Haliburton Drop-in Centre held at the Community Centre from 7:00 to 11:00 p.m. This attracted about 70 area high school students.

The students listened to music, danced, played cards, table tennis or just visited. A 50/50 draw was held to raise funds for the centre and the winner was Jim Hicks. In addition to the student supervisors, four adult volunteers were in attendance.

This was the first of what we hope will be many Drop-in Centres for the local high school. The Centre was organized by a committee headed by Scott Hore. The other members are Steve Bugden, Vice President; Audrey Bannan, Secretary; Cindy Hore and Stephanie Kuno, Treasurers; Bill Tripp, Katherine Austin, Muriel O'Hara and Jackie Picard.

The next Drop-in Centre will be held Wednesday, Nov. 2 from 7:00 to 10:00 p.m. at the Community Centre.

Anyone interested in helping out should contact Scott Hore at 457-1117 or Bill Tripp at 457-2694.

Scott Jackson waits to return the ball in a game of table tennis at the teen drop-in centre. The centre was officially opened last Friday night by Dysart et al councillor, Gary McKnight.

Haliburton County is famous for its views from hilltops and the drive along Highway 648 is not any different. From this vantage point along the road a

person can see a couple of miles across forests and lakes. The tour this week was along Highways 121 and 648 in the eastern end of Haliburton County.

648 and 121 provide scenic tour of county

Editor's Note: This is the fifth part in a series of tours of Haliburton County. Persons interested in helping The Echo and Recorder by suggesting tours should call our office.

The eastern end of Haliburton County provided the interesting scenery and small towns to visit in this week's tour of the county.

The tour started at the intersection of Highway 121 and 648 a few miles past Tory Hill.

The circular route gives

everyone the opportunity to see some of the small towns and bush that make up Haliburton County.

Travelling down Highway 648 we go past a couple of small lakes and then end up in the community of Wilberforce, a village in Monmouth Township. Like the rest of the county, Monmouth is famous for its scenery and it is also well known for its community spirit.

In Wilberforce there is the Lloyd Watson Community Centre, a centre of activity for

the area and immediately across the street is the new arena for the township.

Following Highway 648 out of Wilberforce once again you will find the area dotted with small lakes and excellent scenery.

The next village is Harcourt, which is part of the municipality of Dysart et al, the largest municipality in Haliburton County. The municipality covers an area which includes Haliburton Village.

Highway 648 seems to follow a constant circle and

before long you find yourself travelling through Highland Grove and starting a journey south to Highway 121 again. The drive to 121 is marked by its beautiful views from high on top of hills.

Our journey took us down 121 to the county line as well, through the Village of Cardiff and some scenery which would remind some people of the Georgian Bay area.

At the county line we turned and headed back down 121 and ended the tour at the same spot we started.

The scenery on some parts of the trip this week, especially on Highway 121 near the county line, is similar to scenery one would expect to find along

Georgian Bay. The trip this week took us as far as the eastern Haliburton County Line.

Echo editorials

No group or person is above the law

Recent development in the House of Commons regarding the illegal activities of the RCMP should be of concern to all of us in Haliburton County. Seldom does The Echo editorialize on international or national affairs but we break with that tradition today because of the significance these events have for all Canadians.

We maintain that if we are to live in a free, democratic country, our lawmakers and law enforcers can be neither exempt nor above the law. What has happened is that under the pressure of national emergency situations we have turned a blind eye and shown a disregard for the law. What has clearly developed is that having set a precedent the RCMP have now adopted a policy which allows them, and not the House of Commons, to determine what constitutes an emergency and under what conditions they may be exempt from the law of the land. In short, they maintain that the end justifies the means. A free, democratic society lives under the basic philosophy that the means is the end.

If under situations of great national stress, police need special powers to preserve our democratic rights, then those powers should be decided upon where the laws of the land are born and not unilaterally decided in the office of some deputy assistant commissioner. This is basic to our beliefs and that is why each of us in Haliburton County should be concerned and voice our opinions.

It will not do to have Mr. Fox, the minister responsible for the RCMP, or Prime Minister Trudeau, attempt to justify what has taken place. To restore faith in this government and the RCMP, action is needed by these two ministers to ensure the public that no one is above the law.

Bad side of life found in vandals

What is happening to our society is not always bad but it does have its bad side.

Last week on the front page of The Echo and Recorder there were two stories, one telling about the achievements of secondary school students at the Haliburton Highlands Secondary School and the other telling about the not so great achievements of some other people who vandalized two car dealerships.

The students have put their energy into creating something good for themselves and Haliburton. They can be proud that they have worked hard and because of the hard work have been awarded.

The vandals on the other hand didn't work all that hard to smash mirrors and kick vehicles in one car lot. About the only thing hard about it was that they must have done it late at night, or early in the morning, when most of us were in bed.

We wonder just what kind of satisfaction the vandals got out of breaking the mirrors and causing other damage totalling in the \$1,500 neighborhood.

Did they read The Echo last Wednesday and pat themselves on the back for their achievements?

Football team worked hard

High School football is a bad word according to many people, but one wouldn't expect to hear too much bad about the sport at Haliburton Highlands Secondary School over the past week.

The Haliburton Highlands Secondary School Redmen came out on top in the Kawartha West division with a record of four wins and one tie during the regular season.

The team shows us what is good about high school football. All season coach Gary Brohman has talked about the closeness of the team. The team spirit and the willingness of a large group of young men to work together to win football games.

The team has done a lot more than win football games though. Every player on the team has learned what it means to work together and just what can be accomplished when people have a common cause.

The Haliburton Highlands Secondary School Redmen have accomplished something that no other football team from the school was able to do and it will be something that will long be remembered by the players on the club.

This weeks Pic of the Past shows a log hunting camp built for the MacKay Bros. in 1922. Shown from left to right are the late Mark MacKay, the late John Moore, Clarence MacKay of Cobocok and the late Bert MacKay. Our thanks to Robert J.

Moore of R.R. 2, Minden who submitted this photo. Mr. Moore told us that this is the hunting camp that he was initiated into and that he still hunts in the same area but in a more modern camp.

Feir Play

by Creighton Feir

At the annual meeting of the Haliburton Highlands Chamber of Commerce, Gary Agnew of Wilberforce was named Highlander of the Year. We can't think of anyone who was more deserving of this award and I would like to take this opportunity of congratulating Gary on this achievement. Gary Agnew, who is the Reeve of the Township of Monmouth, has been instrumental, along with others, in making Wilberforce one of the most active villages in the Province of Ontario. He has been the man who has rallied the citizens of this community together to go out and work hard to make this a progressive place in which to live. Gary has not only been a hard worker in his own community, but has gone all out on behalf of all of the people of his municipality. He has served on committee after committee, both in his own community and in the county as a whole. His progressive outlook and his thinking that anything can be accomplished if everyone pulls together, has been a big asset to Wilberforce and the Township of Monmouth. We wish Gary the best of luck in the future.

We get sick, sore and tired of the people in Haliburton County and other parts of Ontario who are always going around spreading gloom and doom. They are doing it every day and instead of making things better it's making them worse. All it takes is for the Toronto Star to come out and tell the people that the value of our dollar is falling and quote figures that state that unemployment is the highest it has been since 1929. This puts a scare into people and they stop spending money which is bound to have an affect on people locally and throughout Canada.

We are told that at the present time there is more money in savings accounts in the banks than ever before. This in our estimation is not good. This means that the money is not being spread around. In a recent write-up in the Toronto Star some of a speech given by Premier Davis, at Peterborough, stated that part of Canada's economic problem is just "a state of mind." Davis told a news conference that while he isn't minimizing real difficulties, he feels that Canadians have "a tendency to highlight the problems. He went on to say "We don't take sufficient pride in our accomplishments." "While our economic problems are genuine...we should spend more time on the plusses that we have. We have to agree that there are many people who cannot find a job while others can but don't want to work. We

must agree with Premier Davis, it could be "A state of mind."

We have several people, in both Minden and Haliburton, who are on cable TV, complaining about the fact that they are now unable to get the National Hockey League games on Wednesday nights. There is no doubt about it, this is a fact, and in checking into the matter very little can be done about it. To clear the air on this subject we must remember that CTV bought the rights in the past for these games and we were able to pick it up on cable. This year CHCH-TV Hamilton outbid CTV and have sole rights of televising the Wednesday night games. In speaking with Bob Bishop Jr., of Haliburton CATV, who owns the cable systems both in Haliburton and Minden, he told us that it is an impossibility to get the Hamilton station put into our local cable system. For one thing, CRTC would not allow it and Hamilton is just too far away to bring it in.

The only solution would be to bring it in on Micro-wave which would be too costly to even think about. If it gets down to the nitty gritty of the whole matter, we can't put the blame on CTV or on Mr. Bishop. We think that the Wednesday night games should be brought to us through the CBC which we, as taxpayers, are paying for. The ratings for hockey games are high and it's just about time the CBC network started to televise these games. I think that we all have to admit that the hockey games are far more exciting than some of the poor programs that the CBC are trying to shove down our throats.

The Echo and Recorder are seriously thinking of running a feature story on the era when special trains were a big hit here and when they would run hockey specials from Haliburton to other centres for hockey tournaments. We are especially interested in receiving photos, write-ups, or any information you as readers might be able to supply us with. If you can help us out, please drop into The Echo office and drop us a line with the photos or information you may have in your possession. It would certainly be appreciated.

I think that you will have to agree that we are living in a very sick, sick society. All one has to do is look around and see what is going on. When you think it over it really scares you. Just think back to the past few months and if you read our paper you will know

Editor's Notebook

by Jim Badgley

Haliburton County, land of lakes, forests, hills and, of course, pollution.

Everytime we turn around we hear more and more about pollution, especially pollution in the cottage areas such as Haliburton County and Muskoka.

Last week it was a story about the area facing an environmental problem caused by acid rain and air pollution. Not too many weeks before that we heard that there is mercury poison in some of our lakes. (It seems everytime we turn around there is a little more mercury in a few more lakes.)

This time though it seems that our problem is rainfall, and everyone knows just how much of that we have had this year.

This week The Echo and Recorder received a news release from the Ministry of Environment about a study of the preliminary investigations into the effect of precipitation carrying elevated levels of acidity on lakes and rivers in south-central Ontario in an area east of Georgian Bay, south of Lake Nipissing, north of Lake Simcoe and west of the Ottawa River. Don't be fooled by the news release though, it is about the

same report that The Toronto Star had almost two weeks ago.

The news release from the Ministry explains, "Acid rainfall is a world-wide phenomenon and is widespread in North America as a result of nitric and sulphur oxides, by-products of the combustion of most fossil-fuels and some smelting, reacting with the moisture in the atmosphere to form acid."

Isn't it comforting to know that fish are dying around the world because of acid rainfall.

Haliburton doesn't get exclusives on anything it seems, the good or the bad. When people in Toronto talk about the cottage areas they talk about Muskoka and Kawartha in particular, very seldom does the Highlands of Haliburton come into the picture.

When it comes to mercury, Muskoka has more, and now when it comes to acid poisoning, the entire world has the problem. Let's not be dismayed though, perhaps some energetic Toronto reporter will find a poison in the lakes and air that is entirely Haliburton's. That seems to be what it takes to get on the map these days.

As others see it

The Editor,
The Haliburton Echo,
Box 360, Haliburton.

Dear Sir:

While the general public have taken the "Ostrich options," our leader is systematically destroying the unity and economy of our country. Then, with his "chrismatic shrug," he blames "the people" of Canada for our predicament.

At least he is consistent in placing the blame entirely on the Canadian people.

Although it would appear that many countries are losing confidence in Canada, most Canadians have not! Their lack of confidence is only in our present Federal Government, and its bumbling approach to our problems.

When our economy is so low we have to "look up to see bottom," guess who believes it will right itself when we are all bilingual?

Sincerely,
Claudia Say

AUTUMN'S CARPET

A carpet of gold covers the ground. Twisting and twirling another leaf dances down. The grey lake is rough, its waves rolling ashore. Autumn has come to this land once more.

Across the sky thick clouds of grey, Rain in torrents makes a miserable day. Everything's wet but the colors are bright, Red, gold and orange, a tremendous sight!

Red of the sumachs cover the land, Painted so brightly by Almighty God's hand, Under the trees a small cottage of white, It's roof shingled by leaves that dropped in the night.

Inside that cottage a wood stove sends out heat, And everyone's cozy the grey day is beat, Papa and the dog are curled up on the bed, Mama has found a good book to be read.

The kids are quiet with a new game to play, For all they care it can rain all day, The forest is still the animals at rest, Snuggled cozily in warm leaf lined nests.

The fields of corn stand withered and dead, Hanging their heavy, once proud heads, Barren fields beside them furrowed by the plow, Waiting for winter that will soon come now.

Flying south, birds of all colors and size, Soaring and darting neath the leaden skies, Yes autumn is here with its color and cold, Covering us all in its carpet of gold.

Mrs. Carole M. Lidgold,
Scarborough, Ontario.

The Editor,
Haliburton County Echo

Dear Sir:

The Energy Problem appears to concern most people these days. Many possible sources have been considered such as coal, solar heat, wind and tidal power and many others. Has anyone considered the extensive Peat Bogs in Northern Ontario? West of Moosonee, there is a bog or muskeg which, according to local residents, extends for more than five hundred miles. The width varies but is up to some hundreds of miles in places. If it averaged only one hundred miles in width there would be fifty thousand square miles of possible fuel.

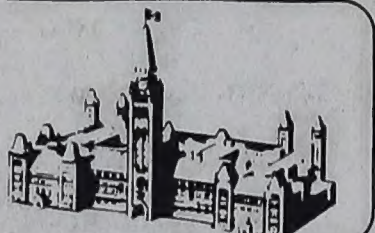

In my imagination I see huge machines scooping up this material and, with tremendous pressure, shaping it into blocks which would contain very little moisture and would be easily dried. This fuel then would fire steam plants to drive electric generators.

I'm afraid I haven't quite solved the energy problem but I have at least made a feeble attempt.

Very truly yours,
J.F. McCrackan

Burlington

OTTAWA and Small Business

by JIM SMITH

The Canadian economy is sick (spelled, if you are so inclined, Sick). Consequently, it seems apt to kick off this discussion with an example derived from the world of medicine.

Assume for a moment that a branch of government announces a program to combat measles. Upon hearing this news, you rush off to the doctor to be cured of your annoying red rash. But the doctor has never been told how to identify measles and, for all he knows, that red rash could quite easily be chicken pox. The doctor, caught up in this terrible communications problem, is unable to effect a cure.

Fortunately, every doctor knows that measles comes

with a red rash, chicken pox with small bumps. Doctors know this to be true because they have been given a definition of measles and another of chicken pox. And, since they have a definitional means of identifying the disease, they are able to treat the patient properly.

So far, so good. In matters economic, however, there is no consistent body of definitions. The federal government, for example, has begun to make rumblings about more support for small business (better late than never) — without laying down a clear conceptual definition of "small business". For all Ottawa knows, "small" business could well be IBM and Imperial Oil.

Lutterworth receives \$27,521 grant

Lutterworth - The Township of Lutterworth has received \$27,521 under the Ontario Home Renewal Program.

Grants totalling \$402,450 under the Ontario Home Renewal Program (OHRP),

have been allocated to 15 municipalities Housing Minister John Rhodes announced today.

OHRP provides per capita grants to Ontario municipalities to administer directly as loans to homeowner occu-

pants to repair their houses to an acceptable municipal minimum standard.

The grants announced today represent various portions of the total 1977-78 funding designated under OHRP for each municipality.

The prime objective of the program is the correction of faulty structural and sanitary conditions and the upgrading

of plumbing, heating, insulation and electrical systems of the owner occupant's home.

OHRP is directly oriented to low and moderate income homeowners with a maximum annual income of \$12,500," Rhodes said.

Loans of up to \$7,500 can be given to eligible owner occupants to bring their homes up to the standards

adopted by their municipality. A portion of the loan can be "forgiven" depending upon the income of the recipient. Interest rates vary from zero to eight per cent, again depending on income.

OHRP extends home renewal possibilities to owner occupants in any municipality in Ontario, urban or rural, which has adopted either a

minimum housing standards bylaw or a resolution setting such standards.

Special arrangements have been made to extend the benefits of the program to the residents of unorganized municipalities in Northern Ontario.

Maple Lake Church

A couple of items were omitted last week from the story on Maple Lake United Church.

Mr. & Mrs. Henry Sawyer were the first caretakers of the church and Rev. Wes Oakes was also a minister at the church.

Mrs. Kay Burns of Haliburton Lake found this maple leaf the other day while raking her yard. The leaf measures 10-3/4 inches wide and is 9 inches from top to bottom.

Report from Ottawa

BY MP BILL SCOTT

Between now and next Friday, November 11, you may be approached by a Canadian Legionnaire, in blazer and beret, and asked to place a red poppy in your lapel. You will also be given an opportunity to make a donation to the Royal Canadian Legion Poppy Fund.

When you take part in this simple ceremony you will be helping to perpetuate a tradition dating back to 1921, when the poppy was adopted as the symbol of remembrance of those 100,000 Canadians who have given their lives in Canada's wars.

Even traditions must be up-dated from time to time, and so it is with the Legion's poppy campaign. The logo for this year's campaign depicts a red poppy above the map of Canada. Underneath is the legend "United in Remembrance", reminding us that the great Canadian union for which so many Canadians have fought and died is today in danger.

Tradition has it that during World War One, soldiers in the field noticed that a strange little red flower seemed to grow in profusion on the graves of comrades who had fallen in battle. The memory was so strong that, after the war, the surviving veterans adopted the practice of wearing a poppy in their lapels on November eleventh each year, the date the Armistice to end World War One was signed.

In 1921 the Great War Veterans Association, predecessor of the Royal Canadian Legion, officially adopted the poppy as the symbol of remembrance of their fallen comrades.

There were not enough real poppies to satisfy demand, and so the GWWA arranged to have replicas produced, and they began their annual campaign to get everyone to join them in remembering our war dead.

In the period between the two great wars veterans pensions and services and benefits were not nearly as generous as they are today. Many thousands of veterans of World War One found themselves in need of assistance, and in the end there was nowhere that they could turn for understanding and help except to their former comrades in arms.

To satisfy this need the annual poppy campaign became the means of financing a nation-wide welfare fund, enabling needy veterans to help themselves and each other.

The Legion's annual poppy campaign is carried out entirely with volunteer help, ensuring that a maximum amount of the monies donated will find their way into the welfare fund. The only expenses paid out of donations are for the purchase of the poppies and essential materials.

In every community across the country where there is a Legion Branch, local business people and ordinary citizens donate services and materials in support of the poppy campaign.

Although most veterans are well covered by pension legislation and other services, the Legion's poppy fund is as important today as ever before. Government services cannot take into account every eventuality, and that is where the poppy fund proves its value.

Many veterans who are not receiving pensions or other benefits suffer losses through fires, illness, and other natural disasters, and the Legion poppy fund is a source of immediate aid, regardless of whether or not the veteran is a member of the Legion.

I hope that in the next few days, every Canadian will proudly wear a Legion poppy in his or her lapel, and that we will all be United in Remembrance.

Haliburton Highlights

BY CREIGHTON FEIR

Haliburton has certainly been a hive of activity during the past couple of weeks with the sanitary sewer system well underway and Tripp Construction have added more crews so that they can work on different streets in the village all at the same time. The employees of the Department of Transportation and Communications have been working on the highway near the first crossing, and work is continuing on several new homes in Haliburton and surrounding area.

We are sorry to report that Mr. Don Little and Mr. Arvine Bird are not in the best of health and we wish both of these men a speedy recovery to better health.

Last weeks weather was ideal and let's hope and pray that we can get more of it so that the projects now under way can continue. If we can continue to get good weather it will sure help with the economy this winter.

Mike Vuksic, of Mike's Milk, has started to build his new building next to Cordell Interiors on the Main Street in Haliburton. When completed this new building will have a full size basement, a new Mike's Milk Store and on the third floor room for apartments and offices. This will certainly be an added addition to the Main Street as this property has been left vacant for a long time.

Hunting season will be getting underway on November 7 and we hope that we will get by the two weeks without any serious accidents. This is the time of the year that most of the men in the county who take a great deal of interest in this sport take their vacation so that they can go hunting.

Aids and appliances modified for the use of the blind people are available through the Canadian National Institute for the Blind. From games including Monopoly and Backgammon to Braille watches and cooking timers - all these and many more are adapted for the use of blind people. If you have not already donated to the CNIB campaign why not do it right away.

The ice is in at the Haliburton arena and teams from the Haliburton Minor Hockey Association as well as the Haliburton Junior Travelways Huskies have been working out nightly in preparation for the upcoming hockey season.

Remembrance Day is November 11 which isn't too far off. When we think of Remembrance Day we think of the Poppy. The Poppy is one of the oldest of all flowers, as it dates back to the early ages. In the legends of Ancient China, and even up to almost modern times, the Poppy was known as the Flower of Forgetfulness because of the fact that the opium which was distilled from the Poppy caused sleep to those who used it, and consequently forgetfulness of all that one might want to remember. This meaning continued, not only in China, but throughout other parts of the world, until about the time of the Napoleonic Wars when some observant person and writer noted the fact that on the field where battles had been fought, which were unproductive and bare waste before the conflict, after the battle, and the burying of the youths on the field, these waste places blossomed forth into vast seas of the scarlet blossoms of the Poppy. This botanical phenomenon was very obvious at Waterloo, Dettigen and other battle fields.

Many local people may want to attend the Sir Sandford Fleming College Frost Campus Tenth Anniversary Open House which is being held today, Wednesday, November 2, from 3:00 p.m. to 10:00 p.m. at Albert Street South in Lindsay.

Many of the local hockey schedules were in last weeks paper so please clip them out for future reference.

We had the first opportunity to see an edition of the Sunday Star this week. We must admit that after reading the paper and looking at the layout of the paper, in our opinion it is an excellent paper and possibly better than the one they publish from Monday to Saturday. It is really an outstanding paper and one that should really catch on. There is no delivery of this paper in the Haliburton County area.

It was really encouraging to see so many local organizations back up the Minden detachment of the OPP on Halloween night. It's a big job and takes the work of many to keep the situation under control.

Curry Motors have had the area in front of their garage and the used car area beside their garage re-paved recently.

Ron Stackhouse, who we all know, is off to a flying start in the early going of the National Hockey League. Defenseman Ron Stackhouse scored two goals in a game last week to lead his Pittsburgh Penguins to a 5-2 victory over the Atlanta Flames. Stackhouse, scoring his second and third goals of the season, beat Atlanta goaltender Phil Myre high over his glove hand on both goals. Ron also has added a number of assists to his credit.

Galway-Cavendish

77-414 Moved by Nokes, seconded by Chambers - That Mr. & Mrs. Donner or their agent be requested to appear before council at a meeting to explain the intent and purpose of their requested severance. Carried.

77-415 Moved by Nokes, seconded by Chambers - That the Galway Hall Committee Report be received as presented. Carried.

77-416 Moved by MacLellan, seconded by Nokes - That the bill submitted by Russ More in the amount of \$612.50, be approved for payment, the tender establishing the fire break - \$425 and providing fill for the Cavendish dump - \$187.50. Carried.

Motion by Mr. Nokes that council adjourn.

COUNTY ECHO FAMILY

by J.W. Peacock

From Lumberjack to Wheat Farmer

Editor's Note: J.W. Peacock was born in Snowdon Township in 1894. In this book, *From Lumberjack to Wheat Farmer*, he explains his early life in Haliburton County and his life in the years later in Saskatchewan. Persons interested in obtaining copies can send five dollars to Mr. Peacock, at 68 Cameron Cr., Regina, Sask.

CHAPTER 4 PIONEERING WEST

My father could not see any future in that part of Ontario for his family and cast inquiring eyes towards the prairies. In 1904 he went west to have a look around. His destination was Saskatchewan. When he got to Lumsden, he found the Qu'Appelle Valley flooded. The water was up to the windowsill of the Bank Building. At that time the railroad ran up the valley for four miles and the track was all washed out. They had installed a ferry to take the passengers across the valley. They had teams to take the people up the north bank to where they could get on the train that came down from Saskatoon.

In Saskatoon, father met a bunch of homesteaders going into the Goose Lake country. He travelled with them out about fifty miles. He liked the country but decided that he could not take a homestead just then. He returned to Saskatoon and worked on construction of the bridge where the Grand Trunk Pacific crosses the South Saskatchewan River. After working there for a couple of months, he went home to Ontario, but he never gave up the idea of moving to the west some day.

In the winter of 1910, there was a man who used to live north of Minden but had gone west some years earlier to Strasburg. He was back east that winter buying horses to ship west. In the spring father brought a carload of his horses out to Strasburg for him. This man had a livery barn in Strasburg and father worked there for awhile. Then he met a family that were going homesteading up into the west country. He travelled with them across country until they were southwest of Prussia, the town now called Leader. The man he was travelling with had bought South African script and all he had to do was to file on it. Some of the homesteaders gave father the number of a good half section of land, and father went to the nearest Land Office which was at Maple Creek and filed on it.

From Maple Creek, he went to Regina. Regina at that time was booming. He looked around to see what trade way paying the best wages and decided that carpenters were the better paid. The wages then were thirty to forty cents an hour. He went to a secondhand store and bought a handsaw, a square and a hammer, and hung out his shingle as a carpenter. I still have the saw he bought. At that time his knowledge of carpenter work was nil, but he was a fast worker and just what those cheap contractors wanted. He learned the trade quickly and within two years he was doing finishing work on the new buildings.

That fall he went up to the homestead and build a shack. It was necessary to do something on the homestead or it would be cancelled. He stayed on the homestead until about Christmas time and then he returned home to Ontario. He worked at the Chemical Works where I did that winter and in the spring we both came to Regina. That was in March, 1911.

We left our home at Gelert on March 7 on what was a homeseekers excursion. I think the fare to Regina was \$15, and it cost us \$25 to go back home in the fall. The train was equipped with what they called colonist cars. These are something like sleeping cars. There was a bunk you could pull down over every two seats to make a bed. These seats were upholstered but I have seen cars that were just slats. You had to supply your own blankets. There was a stove at one end where you could do some cooking but you were lucky to get near it.

It had been a winter of heavy snow. Coming along the north shore of Lake Superior, the snow was as high as the car windows. I noticed a great difference in the air when I stepped off the

train for a few minutes in Winnipeg. I have made many trips to Ontario since and have never noticed the change in atmosphere as much as I did that first time.

As we were passing through Manitoba, we noticed many farmers hauling wheat with teams and sleighs. The roads were built up with snow like a railroad grade and we saw loads that had slipped off the road and tipped over, spilling the wheat out into the loose snow. I thought "what a mess." I was to discover later that things like that do happen quite often and that it is indeed a mess.

When we were a few stations out of Regina, some men boarded the train. They were from Regina. Most of them wore coon skin coats and most of them were farmers. They were trying to hire men to work for them. They were offering much less than the going wage. I don't think they had much luck. Most of the men who were wanting work decided to wait until they got to Regina.

We left Gelert on Tuesday morning, March 4, and arrived in Regina on Friday at noon, March 10. The sun was shining but the air was sharp. We stayed at the Queen's Hotel on Rose Street. At that time it was operated by a negro who was married to a white woman. They had several children that helped around the hotel. They were sharp little things too. I remember one who used to punch the meal tickets at the dining room door. He was sharp. At that time you got all you wanted to eat for 25 cents. I think a room in the basement was 90 cents.

Father and I had five dollars between us. Even at the cheap prices of the Queen's, it would not last very long. Father knew a man who ran a boarding house who would take us for a weeks board. So we moved to this other place and began looking for work. Father wanted to get work as a carpenter but it was early for the work in that line. I wanted any kind of work. At that time the Regina Cattle Company did all their work with horses. I tried them but they did not want any teamsters at that time. One day I saw a sign in a harness shop "Boy Wanted."

At that time I thought that I would like to be a harness maker. I was 16 years old at the time and about six feet tall, but I did not know if I was supposed to be a man or a boy. Anyhow I went in and applied for the job. I found they wanted someone to look after the front end of the store, someone who could speak German as they had a large German trade, so I did not get the job. I thought next I had better try the farmers. I heard of a farmer four miles north of Regina on Albert Street, where now Number Eleven Highway crosses over Number Six. I walked all the way out there but they did not want anyone. I then tried the employment agencies. Our five dollars was getting pretty thin by then. One day I was in an employment office run by a man named Sutton when a farmer came in who needed a man right away. I told him I did not know much about machinery but I could drive horses. He said the wages would be thirty-five dollars a month until harvest and then it would be harvest wages. If he found I was worth more, he would pay me more, which he did.

We left Regina about four o'clock with his horse and cutter and arrived at his farm, about seven miles northwest of Regina, at supper time. He had built a new barn the summer before and to me it was the biggest barn that I had ever seen. It was 128 feet long and 62 feet wide with a high, straight roof. There was a driveway through the loft that went in the south end and came out the northeast corner. There was lots of room for a large supply of hay or oat bales and big bins for oats for the horses. The bottom part of the barn was full of stock, about six cows and a young animal or two, and the rest horses. He had one other man and our work was to do the chores and haul baled straw to Regina. We did the barn chores in the morning and hauled the straw in the afternoon. However, he let us sleep until six o'clock in the morning, which was quite a difference to the

fifteen minutes to three that I had been used to in the woods. Most of the cows were milking. He had a deal with a neighbor to deliver the cream to Regina, so we had to have the cream ready and delivered to this neighbors, two miles away, before nine o'clock. Then we finished our other chores and got our loads ready to go to Regina in the afternoon.

At that time, there were very few cars and Regina was still in the horse and buggy stage. Anyone who could afford it had a nice team of driving horses and a shiny

buggy. It was their habit to hitch up their team and drive around the streets in the evening to exercise the horses and to show off their nice equipment. Behind most of the houses there was a barn with a cubbyhole of a loft. It was into these cubbyholes that we had to deliver the baled straw. In the country there was still enough snow for sleighing, but it was scarce in the city and we had to keep to the back lanes in hopes of finding some sleighing. It was almost impossible to get near enough to the barns to unload the sleigh so

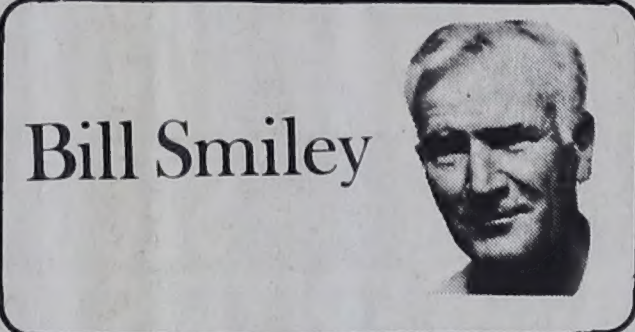

we had to put the bales up into the barns by sheer strength.

The boss had some imported Belgian horses that he had entered in the spring fair. They were in the old barns on the west side of the exhibition grounds. There was a high board fence between them and Pasqua Street. We had to take out bundles in to feed these horses. The snow was drifted right over the fence so we drove along Pasqua opposite the barns and carried the bundles over the fence. What a difference there is in the grounds and in Pasqua Street today.

Besides doing the chores, we had to get ready for seeding. There was the seed to clean. There were no little engines to run the fanning mills and all the mills had to be turned by hand. These mills were not very good. The places where the cleaned grain and the weeds came out were not very far apart, and it was a job to keep the weeds out of the cleaned grain. However, we did the best we could. Another job that had to be done in the spring was to clip the horses and oil the harness. No respectable farmer would think of going to the field without having this done.

The boss was farming two sections and a half. He had four, four horse outfits. The big eight, ten, twelve and sixteen horse outfits used in later years were not thought of then. However, later on in the summer he got another outfit rigged up and had five outfits by the fall.

Cont'd. next week

Bill Smiley

I'm for conscription

By BILL SMILEY

A WHILE ago, Defense Minister Danson sent up a trial balloon suggesting he would not be averse to conscripting young Canadians into the armed forces.

I thought it wasn't a bad idea. Guys my age always think it isn't a bad idea to conscript the young. "Give 'em a bit of discipline. Put some backbone in them," we huff.

Many other nations have conscription schemes under which young men must serve from one year to two in the armed forces, then are listed in the reserve, and go back once every couple of years for a few weeks for a refresher course.

Switzerland is the classic example. It has a cracking good army and a large, well-trained reserve, although it has never been in a war, as a nation. It doesn't have much use for a navy, for some reason.

In Britain, used for many years to a small regular army of professionals, and swarms of volunteers in time of war, the National Service, as it was called, was introduced after World War II and was very unpopular. It has since been cancelled, as the need for bodies in the services shrank with the shrinking of the Empire.

It was pretty well the same in the States. That infamous thing called The Draft was suffered in war time, but when it was used to train young men to go and kill people in a senseless war thousands of miles from home, for no logical reason, it met with calumny, chicanery, and plain draft-dodging, along with a desertion rate that was a national scandal.

That's not quite what Barney Danson and I had in mind. I wouldn't mind seeing a modest form of conscription in which everyone was called up, except of course, your sons and daughters, and mine.

What I'd like to see would be more like the Dutch conscription system, in which the troops can have long hair and beards, belong to a union, elect their own NCOs and wear civvies when not on duty.

Conscripts would be well paid - about \$100 a week - would get one week off for every three weeks in service, and armed forces kitchens would have the best food in the world, outside of four-star restaurants.

The usual perks, of course, would remain: free dental and medical service, duty-free smokes and booze, free travel on leave.

One more thing I would introduce. I would get rid of the rampant sexism that exists in our present armed forces. Women would share the same jobs, the same pay, the same privileges, and the same barracks, as the men.

Women would have the same number of senior officers, based on the proportion of females in the service, just as the French Canadians have now.

Women would be given maternity leave, with no blight on the old escutcheon, just as lady school teachers are now. With one difference. They would have a built-in baby sitter when they went from the swaddling clothes phase back into uniform.

Just to make it fair, men would be given paternity leave, although possibly not the six months granted women. Free day-care services would be provided for the children of parents who were both in the forces.

Medicals would be a little more lenient. I'd admit anybody who could see his or her hand before his/her face; did not have venereal disease; was missing no more than two limbs. This would absorb about 94 per cent of our young unemployed.

But this would cost millions, you will exclaim. Of course it would. Billions in fact. But what's a billion these days? How many billions are we now throwing off the end of the dock to these same people, in the form of unemployment insurance, welfare cheques, reform schools, jails, psychiatric treatment, and education?

I guarantee you we'd break even. And look what we'd gain. We could close up two-thirds of our institutions of higher learning, which would be no great loss. We could cut unemployment payments to the bone. We could trim the fat off the obese, and bolster the health of the badly nourished, with good service grub. We could absorb all those dentists and doctors who now have to make \$100,000 a year to survive.

In five years, we could have an armed force that would make Guatemala quiver in its boots. At the present, the only nation we could lick is Iceland. Without Greenland.

But I am never one to try to foist my opinions, however brilliant, without some solid backing. That's why I did an informal survey with some of my senior classes. They thought it was right on, after I'd outlined my ideas.

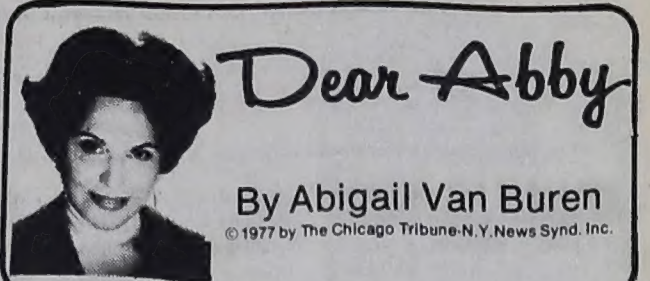

"Wow!" was the reaction of Elvira, back in Grade 12 after an unsuccessful attempt to establish a career in waitressing. "You mean we'd all live together in them there - whadda ya call them, sir - barracks?"

"Ya mean I'd get a hundred bucks a week just for drivin' around in a tank or goin' for a cruise on one of them big ships?" queried Joe Muffraw, who is 20 years old and has never been away from home or held in his hand more than a 10-dollar bill in his life.

"Who gets to be officers, and how much do they make, and are they fed better?" asked Christopher, the class whiz. "Sure sounds easier than four years of college and no job."

That's just a sampling. I asked for a show of hands from those who were unalterably opposed. Not a hand was raised. But of course, they were not sure what unalterably meant.

Dear Abby

By Abigail Van Buren

© 1977 by The Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: I'm 15 and I'm going with a dude who just turned 18. He says he loves me and wants to marry me some day, but we fight almost every time we're together because he keeps trying to talk me into going all the way with him.

I told him I was saving myself for marriage and I wasn't going to change my mind, but he keeps trying to break down my resistance.

Abby, I really love this guy, but if he keeps hassling me to go all the way, I don't know what I'll do. How can I hold him off without losing him for good?

HANGING IN THERE

DEAR HANGING: Let's get one thing straight. A fellow who loves a girl doesn't hassle her to do something that's against her principles. If you lose him because you can't hold him off, you'll be lucky. Hold out for orange blossoms. He's offering you poison ivy.

DEAR ABBY: Most men think nothing of wearing a suit for four or five years—or even longer. So will you please tell me why a woman won't wear last year's dress?

WONDERING

DEAR WONDERING: Some don't want to. And others can't.

DEAR ABBY: I have a darling 5-year-old granddaughter I'll call Lisa. My son is Lisa's father, but he and Lisa's mother were never married and do not live together. Lisa's mother has lived with one man after another. Right now, the one she's living with belongs to a motorcycle gang.

You wouldn't believe the terrible filth this child lives in. She's dirty and hungry much of the time, and sleeps on a filthy mattress (which she wets) amid roaches and mice. She also has a chronic kidney condition. We live 85 miles away, and Lisa's mother sends her to visit us occasionally. When it's time to take her home, she cries and begs to stay with us.

Our doctor has prescribed medicine for the child's kidney ailment, but her mother "forgets" to give it to her.

We appealed to the Child's Protective Service in the community where Lisa lives, but were told that since our son was never married to the child's mother we are not the child's grandparents, so it is none of our business! What can we do?

FRANTIC IN ARIZONA

DEAR FRANTIC: This is clearly a case of child abuse. Had you disclosed your name and address, I would have reported it promptly. I urge you to phone PARENTS ANONYMOUS at this toll-free number: 1-800-421-0353, and tell them Abby told you to call. And write again to let me know what is done. I care.

Jeannie Tallman dies

Jeannie Tallman, of Wilberforce, died Oct. 25 at Haliburton Red Cross Hospital after a short illness. She was in her 90th year.

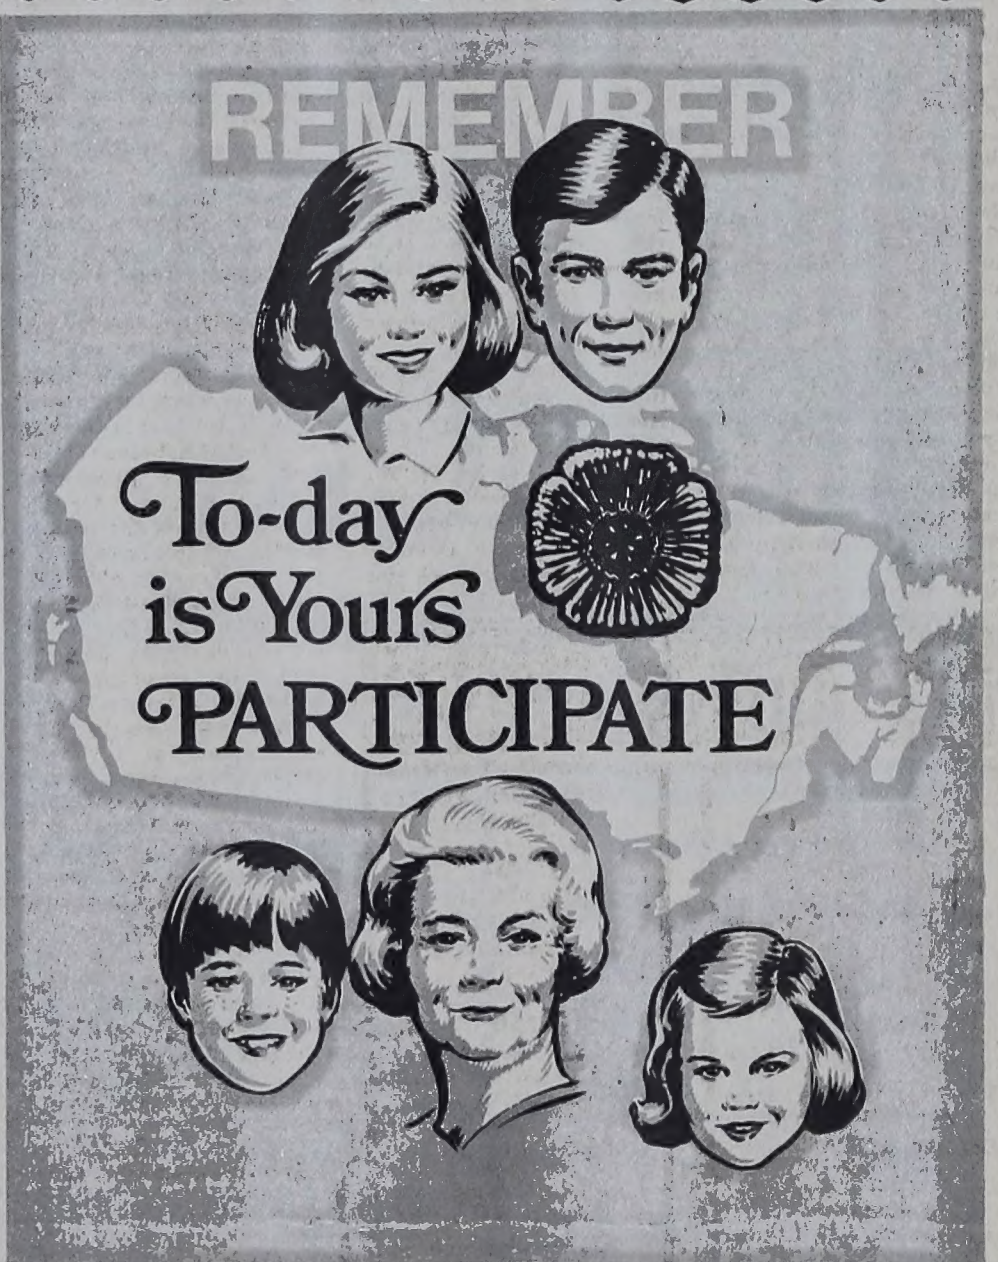

She had resided in Wilberforce most of her life. Born in England, the daughter of the late Mr. & Mrs. Alfred Fleming, on Oct. 1, 1888 - she

came to Canada in 1898 with her family. Her brothers Leonard, William, Arthur & Douglas predeceased her. A sister (Beatrice) Mrs. Frederick Prentice lives in Sturgeon Falls, Ontario.

In 1906 she married Edgerton Ryerson Tallman, and to this union 10 children were

born (Beatrice) Mrs. Esley Matthews; (Alma) Mrs. Wm. dicken and Ernest, all of Kitchener, Ontario. (Edith) Mrs. Jack Daniels of Stoney Creek, Ont.; (Jean) Mrs. Elwin Wood of Richmond Hill; (Patricia) Mrs. George

Gems of Truth

"The very God of peace sanctify you wholly; and I pray God your whole spirit and soul and body be preserved blameless unto the coming of our Lord Jesus Christ." 1 Thess. 5:23.

What a wonderful fact it is to know that by virtue of the "finished" work of Christ, God credits to the account of every believer in Him the complete atoning work of His beloved Son. In God's sight we stand "complete" in Him. Colossians 2:10, 3:3.

Every born-again child of God is called upon to live a life corresponding to that glorious position before God. That is why the Holy Spirit is given to each child of His to enable that one to do so.

To be "sanctified" means to be set apart and this we cannot do, God does it. The believing and forgiven sinner is set apart, once for all, and forever, by the "finished" work of Christ and now the daily work of "progressive" sanctification begins, and continues until that day when the Lord will take home to Himself that child of His either by death or His coming for His saints. 1 Thess. 4:13-18. Many have made the mistake of thinking that sanctification means sinless perfection of this life. But it is not true that the closer we walk with our Lord, the more conscious we will be of our failing Him? All we are and ever hope to be is in our identification with our risen Lord and Saviour Jesus Christ.

Daily sanctification is experienced as we yield to the Holy Spirit in "obedience" of the Word of God. When new light and truth is revealed by Him and we act upon it, we are being sanctified. The

mere knowledge of the truth does not sanctify us, but sanctification comes as we "accept" God's revealed will for daily living and then in simple child-like faith we act in obedience and leave the consequences with God. Many Christians have lost much joy in refusing to act upon the light God has given them.

Many would agree that our capacity of enjoying Heaven is made up here on earth as we yield our spirit, body and soul to the guidance of the Holy Spirit through the Word who ever delights to make the Lord Jesus more real to us. In John 16 and verse 14, we read these remarkable guiding words of truth, "He (the Holy Spirit) shall glorify me (Jesus); for he shall receive of mine and shall shew it unto you." Jesus is forever our true criterion for daily living. What would He do in any given situation? The greater our capacity to enjoy Him here and now, the greater will be that joy in eternity. May God grant that we may permit the Holy Spirit to keep on sanctifying us, until the Lord Jesus Christ "fills" our vision.

It becomes very essential that we be truly guided by the Word of God, and sound, sanctified common sense, lest we be driven into the realm of fanaticism. Our hearts and heads must be guided by the Holy Spirit "through" the Word and His work of sanctification continues until He removes us from earth's scene, when we shall be "completely sanctified."

In the degree that we compromise with the world, the flesh, or the devil, to that degree our daily sanctification is being hindered. When

a Christian chooses to remain in a corrupt and modernistic fellowship and support it with his financial help, sanctification is being hindered. This is why we find Jesus standing at the "door" at the close of the account of the "seven churches" in Rev. 3:20. The Lord of the Church is standing on the outside of professing Christendom, pleading with the individual Christian to yield himself to Him. When He is given His rightful place in worship and daily living there is nothing that can hinder us from being what God wants us to be.

This ever remains the challenge for Christian living, bringing our "state" (how we live) in line with our "standing" in Christ. The world wants to see something of that completeness in Him. Only then will Jesus become attractive to lost sinners, and His life enjoyed.

Legion proclaims week of Remembrance

Dominion Command, Royal Canadian Legion, has proclaimed the week of November 5th to 11th Remembrance Week. Sat., Nov. 5 is the official "Poppy Day" and Legionnaires, Scouts and Guides will be selling poppies on that day. The canvass of businesses will be held before this date and it is hoped that the Legionnaires will be welcomed when they call upon you. This is the Legion's only appeal for funds, for needy

News from Extendicare

BY DR. O.W. ANDERSON

The week started with the news that Mrs. Miriam Lewis is leaving on her annual holiday. She is our activity director. She not only manages our activities but co-ordinates and directs our social functions, and buses us to wherever it is decided we go on our various outings. While she is away we will stay put.

Tuesday morning communion service was held, Rev. Trevor Denny of St. Georges Anglican Church conducting. There was a very good attendance. Bingo in the afternoon, though somewhat of a contrast, presented nothing

of special hope.

Scientists lead us to believe that about 1990 nuclear fuel will be scarce and that our best way out is to salvage as much of the activity from our present wastes as we can. At present that process carries too much risk to the point that although facilities for this have been built, they are condemned as unsafe before they go into operation. In other words no scientist has come up with a safe nuclear waste extraction facility. Therefore, all the wastes of all the nuclear facilities up to and including the present have been unsafely disposed

of, or held in abeyance. There is fear that some of this waste will be the goal of some of these hijackers of whom some may be physicists, that are knowledgeable enough to construct an atom device with which to hold segments of society to ransom. Against this it seems pitiful that if legitimate government wishes to establish a waste recovery plant in a remote area, safely remote from any possible human habitation there is always a rabble rouser to incite people in even more remote areas to block it.

Mrs. Mary Currah and Mrs. Hazel Parish, two of our ambitious ladies, made us two nice looking cherry loaf cakes, that soon we will be able to sample. We would like to know what we can do to encourage more of that activity.

Mrs. Mae Emmerson suffered a painful fall in the early hours Wednesday. An X-ray taken showed nothing broken so she should be quite herself

soon. We hope there is no undue discomfort.

Thursday we mingled with the Haliburton senior citizens club to have the noon meal. There sure is plenty of food and variety at these potluck meetings and it is delicious. Our grateful thanks go to them.

In the evening we went to the Haliburton High School auditorium to the presentation of a melodrama "No Opera in The Op'ry House Tonight." It was a very profitable evening out for us in that the performance was superb. The role of the villain was well portrayed by Bill Gliddon. Other members of the cast were no less noteworthy.

The weather we have been getting of late is quite remarkable. As each day comes we expect the cold but instead the balmy weather continues. There is no better way to shorten the winter and reduce our ever increasing cost in energy consumption.

Our devotional period Friday morning was led by Rev. John Smith, his wife Velma was pianist. The theme was Love. Be it Faith, Hope or Charity, the greatest is Love. We look forward to these breaks in our routine.

The evening brought our Hallowe'en party with some of the staff and residents donning ridiculous costumes. Among the staff were Doreen Robertson, Dolores Hall, Lisa Cain, Anne Wise, Lynn Phillips and we all think Sheila Elston which she denied. Also Mrs. Kel Andison, a faithful volunteer worker. Charles Plewman was the only resident in disguise and he, with the harmonica, accompanied Miss Elston as she entertained us with piano. Jake Gill gave a Hallowe'en reading and Ezra Lott, two recitations. Donuts were served on the end of a string. The finale was a surgical procedure enacted in shadow which had a happy

ending. It was a happy party all the way through. Mrs. Pat Burk, M.C. for the party singled out some of the residents to mimic various occupations asking us the answers. She did exceptionally well and got lots of correct answers.

On Sunday afternoon we were glad to have Capt. Doug Barry, Mrs. Lillian Hague and Mrs. Amelia Sibley come in to provide some music. The Capt. at the piano, the ladies singing the well tried, lively gospel songs. We thank them.

TRADING PARTNER

The U.S. is Ontario's major trading partner, accounting for about 80 per cent of exports, states the Ontario Ministry of Industry and Tourism. Within the E.E.C., the largest single markets are the U.K. and West Germany.

The Word of God

by Brian V. Sullivan

In our last article we brought to your attention the fact that God had fulfilled the land promises that were given to Abraham and his seed. However, we suggested in the final line of the article that there might be some difficulty for Israel in retaining the land that God had given. This difficulty is associated with their unfaithfulness to God.

Let me outline the conditions that were set before Israel for their continued possession of the land. Our text is Joshua 23:11-16 and I would like for you to view it in the Bible. Here is a brief consideration of the warnings found within the text. Verse 11, warning given to "take good heed" concerning their love of God. Verses 12-13, ways in which they could "go back" in their service before God and the result thereof. Verse 14, Joshua's final remarks and reassurance that "not one thing hath failed thereof." Verses 15 and 16, additional warning with ultimate end of unfaithfulness described: "ye shall perish quickly off the good land which He hath given you."

Our second text to consider is found in Deuteronomy 6:1 through 8:20. Numerous warnings are given in regards to remaining faithful to God, along with severe condemnations for disobedience and unfaithfulness. We draw your attention to the latter. Deuteronomy 6:15--"and destroy thee from off the face of the earth." Chapter 7, verse 4, "and destroy thee suddenly." Chapter 8:19-20--"And it shall be, if thou do at all forget the Lord thy God, and walk after other Gods, and serve them, and worship them, I testify against you this day that ye shall surely perish. As the nations which the Lord destroyed before your face, so shall ye perish; because ye would not be obedient unto the voice of the Lord your God."

The following quotation from the writings of Mr. Homer Hailey, seems to sum up the entire picture: "That Jehovah rules in the nations of the earth is clearly seen in the warning given to Israel in the 28th chapter of Deuteronomy. Israel's success and

victory over her enemies, her well-being as a nation, her continuing to possess the land which God had given her - all of these things are made conditional and contingent upon her hearkening to the voice of God. "And it shall come to pass, if thou shalt hearken diligently unto the commandments which I command thee this day, that the Lord thy God will set thee on high above all nations of the earth; and all these blessings shall come on thee, and overtake thee, if thou shalt hearken unto the voice of the Lord thy God..." (Deut. 28:1-2). All the blessings described are conditional. The word "if" appears with nearly every single blessing promised; and in the same way the punishment and chastisement to be dealt to Israel will also be conditional. It will come only on the basis of an "if not." If Israel does not hearken unto the voice of God, then dire punishment will be visited upon her.

The giving of the land to Israel was in fulfillment of the promise made to Abraham; the retaining of the land was conditioned upon their heeding the covenant, and the laws of this covenant which God had made with them. Both in Deuteronomy, chapter 28, and in Leviticus, chapter 26, the same idea is set forth - both blessings and cursings are conditional. The blessings will come IF Israel DOES hearken to the voice of God. The cursings will come IF Israel DOES NOT hearken to the voice of God. It is all spelled out for Israel in terms easy to understand. The choice is hers to make."

(Vanguard Magazine, Vol. 1, Number 3). Read next week's article to see what happened. See you then.

County sports

BY JIM BADGLEY

I have heard it through the grape vine that enrollment is down in our minor hockey system and perhaps it is down for a good reason. The travelling, for youngsters in the Tri-County system, has become just too heavy.

For instance, the Haliburton Atom entry in the Tri-County league will play Monday, Nov. 7, in Cannington, beginning at 6:30. That means that the youngster leaves for the game right after school and then won't get home until something closer to 10:00 p.m. than 9:00 p.m.

Minden will get a taste of the travelling early in the season as well, when the Minden Atoms go to Beaverton on Thursday, Nov. 10 for a 7:15 game which is scheduled to end at 8:15 p.m. Allowing time to get dressed after the game, and the coach to round up the players, what time do you think that team will get home on a school night?

These games aren't the exception in the league this year. For instance, in the schedule Haliburton goes to Beaverton for a 7:30 game on Nov. 14 and Fenelon Falls for a 6:45 game on Nov. 25, and Minden will get similar trips to these areas. These games, along with many more like them make up the Atom schedule in the Tri-County league.

The players in Pee Wee, Bantam and Midget, in Tri-County hockey will find their schedules similar.

Not only that, but come playoff time there will also be possible trips to places like Keene, a few miles south of Peterborough.

I understand that there was an attempt made at bringing minor hockey to the area so to speak, a few years ago, and there was an attempt to operate a league in Haliburton County. Perhaps there wasn't the competition that our Tri-County players are getting now, but then again, I would suspect that it was easier to get youngsters out to play.

I would suggest that the three minor hockey associations in the county take a long look at the divisions among us and possibly look for a merger of the three systems.

Haliburton County, with a population somewhere less than 10,000, could be considered no different than a number of towns in Ontario. There could be a minor hockey system, where the players are all put in a pool and the various teams picked out of a hat.

Instead of there being a house league Atom team in Minden, one would think that some Minden players, along with some Haliburton players, could form a team, sponsored by local merchants, in the Atom division.

This would give more youngsters the opportunity to play, basically because it would make it easier to schedule the ice time at all three arenas in the county.

The great advantage of the whole system though, would be that Haliburton County does have three arenas. There is not likely another population area of 10,000, anywhere in Ontario, with two arenas, let alone three.

When I was young and growing up in Oshawa, which in those days had a population of 60,000, there were many years that its minor hockey system operated with one rink.

With three arenas, and hopefully enough youngsters in the area, the house league hockey games could be played entirely on Saturdays and there would be enough ice time around the county that coaches and managers could schedule exhibition and practice time.

The trip from Minden to Wilberforce, on a Saturday afternoon, certainly must sound more appealing to most parents than a trip from Minden to Keene on Tuesday, Dec. 27 for a game which will begin at 9 p.m. for the Tri-County Midgets.

A county-wide hockey organization could also change the type of system used in selecting players for the All-Star Ontario Minor Hockey Association clubs. Instead of the players in each town going out for the OMHA teams and then being dropped to the Tri-County level, the players could go out with the house league team and then the OMHA coach could select them from that league. It means a lot to a youngster not to be cut from a hockey team.

Having a local house league would mean that there are two possibilities at the OMHA level.

The Haliburton County Minor Hockey Association would have the opportunity of keeping the OMHA set up the same or going to one All-Star team for the entire county, I would think.

I for one would enjoy having one All-Star team for the entire county in each division. First of all, it would improve the calibre of hockey we would see by simply moving the area up a few notches and having games, and being competitive, with larger centres.

Minor hockey is for the youngsters and in Haliburton County we have the facilities to make it just that, instead of a great competitive thing between two towns.

COUNTY ECHO SPORTS

Redmen win 37-9

HHSS takes league championship

Cannington - The Haliburton Highlands Secondary School Redmen returned to Haliburton last Tuesday night with the Kawartha West Football championship, after downing Brock of Cannington 37-9.

Haliburton finished the season with four wins and one

tie for the first undefeated year in the nine year history of football at the school.

The only tie came in the opening game of the season, against Brock at H.H.S.S.

Coach Gary Brohman said that it is the first winning season for the school in six years.

Larry Stinson led the way offensively again for Haliburton, scoring three touchdowns.

One of the touchdowns was a 72 yard pitch and run play from quarterback Tim Davies. He scored on a 45 yard run off tackle and a three yard plunge.

H.H.S.S. fullback, Steve Davies, scored two touchdowns on three and five yard plunges.

Brian Mulholland and Ed Roberts both scored two point conversions on passes from Tim Davies. Davies kicked two converts and Mike Schef-

fee kicked a single point.

Score at halftime in the game was 14-2 for Haliburton but Brock closed the gap early in the third quarter with a touchdown.

The 45 yard run play after that, by Stinson, broke the game open for Haliburton.

Defensively Haliburton got a big effort from a number of players and came up with five turnovers.

Mike Iles intercepted two passes, including one he ran back for 50 yards. Kevin Finch had one interception and Ed Roberts recovered two fumbles.

Coach Brohman said that the team got solid performances from Roger Hicks, Fraser Newton, Jamie Rogers, Brent Collier, Bart Barnes and Dave Brown on the defensive team.

Offensively it was a case of Stinson getting good blocking from the offensive line, Tim Bain, Jim Thompson, Scott Valentine, Jerry Solmes and Paul Watson.

Coach Brohman pointed to the work of his players "in the trenches" the offensive and defensive lines, for the success of the club this season.

He noted though that the team got a big performance from Stinson who carried the ball 109 times this year for 804 yards during the season. He has a 7.4 yards per carry average.

Coach Brohman said that part of Stinson's success is due to the blocking from the other backs, Steve Davies and Ken Griffin. He added that Stinson lived up to all of his expectations this year.

Angels sweep bowling action

Carnarvon - Audrey's Angels were the only team to make a clean sweep wiping off Dan's Dynamos, Lynn's Loafers and Fred's Foxes took 5 off Ron's Rollers and Ev's Strikers respectively, leaving the Strikers still in front with 40 points; Angels 25; Dynamos 24; Rollers 20; Loafers and Foxes 19 points each.

Walt Ackerblade led the pack with 674 (269, 224); Brenda Cook 632 (241, 227); Audrey Fountain 631 (256, 240); Fred Cox 630 (262, 209); Lynn Frankland 612 (256); and Flo Henderson 606 (233, 213).

Singles over 200 were Dan Harding and Ev Stata 220; Marlene Cook 217; Dorothy Robinson 214; Barb Fountain and Deb Harding 213; Albert Cox 211; Rick Harding 209; Harry Fountain and Ed Cox 208; Wes Stata 206, 203; Marnie Robinson and Grace Downey 200.

Congratulations to Georgina and Don Boland who came in second in the Mr. & Mrs. 1000 Lakes Tournament winning a lovely table lamp and Phyllis and Dustry Sutherland, 3rd place, winning "dinner for two" at Mr. Fogg's Restaurant. The

winners were Mr. & Mrs. Frank Pomeroy from Bancroft.

Midgets battle to 1-1 draw against Woodville

Oakwood - The Haliburton Beaconbrook Midgets and Woodville Midgets battled to a 1-1 draw in a game played in Oakwood Saturday night.

The two clubs battled to a scoreless draw at the end of the first period, each picked up a marker in the second frame and the teams were scoreless again in the third period.

An interference penalty to Kevin O'Hara of Haliburton was the only mark to go on the scoresheet in the first period.

In the second period Haliburton capitalized on a roughing penalty to Woodville's Ted Dyson for a goal at 2:20. Mike Rae was credited with the marker. Mike Iles picked up an assist on the play.

Woodville's Steve Cameron scored an unassisted goal just one minute later to even the count. There was a total of 30 minutes in penalties in the contest with Woodville taking 18.

The Midgets will see action again on Nov. 12 when Ops travels to Haliburton for a game which will begin at 8:30 p.m.

Exhibition game

Huskies lose to Bancroft

Bancroft - The Haliburton Travelways Huskies started an exhibition game of right by scoring in the first minute but Bancroft Jets came back with seven goals to win 7-3.

Haliburton took the 1-0 lead when Joe Roberts connected from Dwight Sisson at the 42 second mark of the opening frame.

D. Robock evened the count for Bancroft at 6:22 of the period on a play from B. Frausky.

Roberts gave Haliburton the lead again just 15 seconds later when he scored from Jay Wootton.

Bancroft took the lead for keeps at 10:05 of the opening period when S. Charboneau scored from K. Hinze and G. Watson.

Each club scored once in the second frame, Bancroft getting the eventual winner when Robock connected from N. McFarlane and A. Linton at the 52 second mark of the period.

Andy Salvatori put Haliburton within one goal again with 1:38 remaining in the period when he connected from Barry Shaw.

The third period was all Bancroft's. Watson scored unassisted at 6:45 to run the count to 5-3.

Charboneau made the score 6-3 on a play from Hinze at 12:05.

The final goal came with 6:36 to play in the game, when Robock scored his third from Watson and Laundry.

A total of 59 minutes in penalties were called in the game with 31 going to the Huskies.

Plenty of hockey action in Minden and Haliburton

There will be plenty of hockey action in Minden and Haliburton this week, with the beginning of the 1977-78 season.

On Friday night the Haliburton Huskies will take on Bancroft in an exhibition game scheduled for 8:30 p.m. at the Dysart Community Centre.

In OMHA action, in Minden, the Fenelon Falls Atoms will be at the Minden arena for a game at 3 p.m., Nov. 5. On Nov. 8 at 7:30 p.m. the Minden Atoms travel to Cannington for a game.

Cannington Pee Wees will be at the Minden arena Nov. 5 for a contest which is scheduled to start at 4 p.m. At 5:30 p.m., Nov. 5, the Cannington Bantams will be at the Minden arena.

On Nov. 7 the Minden Bantams travel to Sunderland for a game scheduled to start at 7:45 p.m.

In Midget action, Nov. 5, Little Britain will be in Minden for a game scheduled to start at 7 p.m.

The Minden Juveniles will host Fenelon Falls at 8:30 p.m., on Nov. 4. They will travel to Ops on Nov. 6 for a 9:30 game.

In OMHA action, in Haliburton, the Haliburton Atoms will host the Bobcaygeon Atoms Nov. 5 at 7 p.m.

The Haliburton Bantams will play in Ops at 6:15 p.m., Nov. 6 and Beaverton will be in Haliburton Nov. 8 for a game scheduled for 8:30 p.m.

The Haliburton Midgets will host Bancroft this Saturday night in an exhibition game scheduled for 8 p.m.

In Tri-County action, Beaverton Atoms will play in Minden at 2 p.m., Nov. 5. A second Beaverton team will be at the Dysart Community Centre for a game scheduled to start at noon hour.

On Nov. 7 Haliburton Atoms will travel to Cannington for a game which will start at 6:30 p.m.

Minden and Haliburton Pee Wees will tangle Nov. 5 at 1:15 p.m. at the Dysart Community Centre.

On Nov. 6 Cannington Pee Wees will be in Minden for a game scheduled for 4:30 p.m.

On Nov. 9 Haliburton will play at Beaverton at 7:15 p.m. and Minden will play at Fenelon Falls at 7:30 p.m. in Pee Wee action.

Haliburton Tri-County Bantams will travel to Beaverton on Nov. 5 at 8 p.m. and Cannington will play in Minden Nov. 6 at 6 p.m.

The only Tri-County Midget game scheduled in Haliburton County during the week will be Ops at Minden at 7:30 p.m., Nov. 6.

The Minden Atoms got their first taste of action Saturday at the Minden Arena. The Atoms took on Cannington in the opening game of the season. Minor hockey is underway in both Haliburton and Minden.

Softball game goes to Somerville firefighters

The Galway-Cavendish & Somerville Fire Departments got together for another smashing baseball game on Oct. 23. What a beautiful day it was, weatherwise and gamewise, a shame more people didn't know about it. Merv Preston confides that these games are more or less discussed by phone, and if the weather looks good, they play. Merv really regrets not calling Garland Barkwell, Percy Sherman or even Kathleen Hartin. As a result, Shirley Preston his wife, had the dual role of scorekeeper and umpire. Now contrary to one's opinion, namely Shirley's, this is an impossible combination. If she was scorekeeping and someone pitched a ball which she didn't have an eye for, some would help with a call of "Ball", she'd call "Strike". Merv's insisting on having Shirley's eyes tested, and Hugh Fountain's backing him up. Shirley's comeback is "When in doubt, call them out."

I seriously hope the teams have looked into compensation coverage. Frank Franzen walked to first when he got hit in the leg by a pitched ball.

When John Angus was at bat, he stepped back and was hit with the ball. No walk. Roger Hartin was running from second to third, Doug Pearson threw to third baseman Scott Young, the ball was deflected off Scott's glove and hit Roger in the head, he was safe on base but what a headache! Frank Franzen

was hoping to be safe also, when he saw that first baseman John Barkwell had caught the ball and was waiting for him. Frank kept right on running, picking up John on the way. He was out, but it was a nice try. Keep your eye on Somerville's Hugh Fountain, he can really hit a ball, as well as

pitch them. Nice to see Walter Smith back on third base. Reeve Brickman was in attendance, in a beautiful spiffy suit, Somerville was just awaiting. But it was a no-go, he was just observing. Leon Wright's wife was observing too, the game and the kiddies. The game turned out to be a Somerville win, 18-12.

Wednesday league

Linda Morrison leads way

Carnarvon - Linda Morrison led the Wednesday Afternoon Bowling League last week with a high triple of 703.

Other high triples were Muriel Peters 603, Bill Barber 653 and Harry Henderson 646.

Single games over 200 were rolled by Linda Morrison 203 and 202; Phyllis MacDuff 201; Muriel Peters 243; Millie Beatty 209; Ev Stata 207, 204; Fran Woods 207; Gord Bennett 210; Bill Barber 213, 214 and 226; Ev Griffin 223; Harry Henderson 240, 222; Shirley Hamilton 225.

League standings are Aces 35, Snowflakes 29, Rebels 28.

Criers 23, Harry's Angels 21 and Hit & Mrs. 11.

Along the Trails

BY ROY BATES

A NUISANCE TO PETER

A couple of years ago the Honorable Peter Burtinik, then Minister of Highways

for Manitoba, raised the registration fee for snowmobiles from five to ten dollars per year. The increase might have been acceptable had the Minister indicated an appropriate use for the revenue, but he did not. Instead, he made a statement to the effect that he hoped the fee would discourage large numbers of snowmobilers thus reducing, or eliminating a nuisance in the Province.

We suspect that Mr. Burtinik is now having second thoughts. His uncomplimentary utterances were picked up by a reporter for the Winnipeg Free Press, and as if that wasn't enough to bring about the Minister's undoing Mr. Derrick Crandall, writing for the International Snowmobile Industry Association featured the story in an I.S.I.A. Newsletter. Suffice to say that Mr. Burtinik was given excellent coverage.

See page 14

Lillian Gorveatt rolls 704

Carnarvon - Lillian Gorveatt rolled a 704 triple to come out on top in the Wednesday afternoon Ladies Bowling League.

She had singles of 301 and 256. Eva Piper rolled 641 (228, 245) for second place. Flo Henderson came up with a 616 (204, 279).

Annie Jones had a 236 single, Betty Yatsman 234, Pearl Foster 212, Iris Taylor 209 and Mary Coltman 205.

Equipment exchange planned

The Haliburton Minor Hockey Association will be holding another equipment exchange this Saturday.

The exchange will be held at the Dysart Arena from 10 a.m. to 2 p.m.

UNIROYAL

Snow Tires

Price? Performance? Some drivers think they have to compromise between the two. Obviously the more you pay for a snow tire the more features you get. But at Uniroyal we build in performance at each and every price level. Result: no matter what you invest you get full value for your tire money. And by having this range of snow tires we can say "We're a one-stop tire shop" because Uniroyal has a tire to fit every car (well, almost!) and certainly a tire for every pocketbook.

Norland Notebook

By Barbara Maunder
454-3233

Fire chief, Jim Boyce and John LeCraw attended a course on forest fire fighting in Elizabethtown last weekend October 22-23. There were 25 firemen chosen from the Mutual Aid Fire Departments of Victoria County who were at the Ganaraska Re-forestation Area of the Department of Natural Resources to learn more of the fundamentals of bush and grass fire control.

Norland Public Home and School Association had a very successful Curriculum Night earlier this month and plans are underway for all to come and enjoy a Family Clay evening at the school on Tues., Nov. 15 from 7:30 to 9:30 p.m. Children must be with an adult and it is suggested that you wear old clothes and if possible, bring a knife, fork, rolling pin and a container for water with you. An added feature will be guest speaker, Mrs. Margaret Stewart, our County School Board representative. Family membership for the Home and School Association is just \$2.00 and will be available as will tickets for a Christmas Draw of 20 pound and 15 pound turkeys and a 3 pound Christmas cake, at .50 each or three tickets for \$1.00. This should be an evening of learning and fun for everyone.

Douglas Graham, 17 year old son of Buck and Grace Graham and Harry England, son of Joe and Grace England travelled to Western Canada provinces this summer and were later joined by Gary Liscombe. Harry and Gary have now returned to Norland but Doug liked our Canadian West so well that he stayed in British Columbia and found employment there. He is a gas well tester and the headquarters for his company are at Fort St. John, B.C., a town about forty miles from Dawson Creek. Doug's mother, Grace, says that he is working in various parts of British Columbia and seeing a lot of the country. He hopes to be home with his family for Christmas but plans to return after the holiday season.

On Victoria Day, last May, some of you may remember the excellent fireworks display that was so well organized by John LeCraw's wife, Dolly. There was much last minute purchasing of fireworks as more and more people gave donations to help defray the cost of the show. In order to avoid this and have some funds ahead to purchase supplies wholesale, a hockey pool has been organized based on the seconds of

the last goal of the Saturday night game shown on Peterborough CHX - Channel 12. At the present time, the hockey pool is completely subscribed but from time to time a chance may become available. Tickets are .50 per game, per week and winning prize is \$15.00 with the remaining funds going to Norland Firefighters Association to be used to purchase next year's fireworks. Winners to date - Oct. 15 Kirk Magee - 46 seconds; and on Oct. 22 - Joe England - 2 seconds.

About 100 friends and relations offered their congratulations to Eva and Roy Dunbar on Sat., Oct. 22, when they held an open house at their home on the occasion of their Fiftieth Wedding Anniversary. Their family had arranged for sixty guests to sit down to a delicious hot roast beef dinner served by the Norland United Church Women in the Church Hall, following the afternoon tea. To complete this momentous day, everyone danced afterwards at the Lions Community Hall in Cobocank. Truly a very special occasion!

Everett and Leona Fountain left on Saturday, Oct. 29 to fly to Miami, Florida, to visit their daughter, Dixie, who is a nurse at the Cedars of Lebanon Hospital there and to enjoy a sunny Florida vacation. They plan to visit Disney World, the Florida Keys and other tourist attractions, returning home on Nov. 6. Mr. & Mrs. Andy Boyce will be "house sitting" for them while they are away.

Norland Bowling Club team standings as of Oct. 26: K. Watson team 24 points; J. Maunder 19 points; D. Boyce 12 points; Eileen Forsythe 12 points; E. Edwards 11 points; and J. Boyce 6 points. Ladies high single, triple and average - Rotha Bryant - 279, 712 and 186. Men's high single - Bill Lee 273, high triple and average - Ernie Edwards 685 and 218.

Chatting with Irene

286-1674

As I sit here doing this column I keep wondering just what we have done to deserve such great weather, the sun is

News of the district in The County Echo

The Monmouth Arena is taking shape more and more every day. The stonework at the front of the building is almost complete and it is expected that there will be ice in the building at least by January. A number of fund raising projects for the arena are in the works.

Cobocank News

by Sheila Lake

Mr. Jerry O'Sullivan, husband of Doris Angiers, passed away in Toronto on Fri., Oct. 21. Jerry had been ill for some time and was in his 51st year. Some years ago they lived here in town, on Grandy Road, but have been in Toronto about 22 years. The brothers attended the funeral on Tues. Our sympathy goes out to Doris and her family.

Mr. Herb Fell and daughter, of Lindsay, and a Coldwater friend, visited with Mr.

& Mrs. Sanford Richman this week.

A number of Bexley residents are a little upset with the changing about of garbage collection days. Seems several missed the pickup because they were not aware of the change of days. Perhaps someone can explain why Bexley side of the village is confused regarding this necessary service.

The Ladies' Missionary group of Faith Tabernacle

were hosts of Lindsay Apostolic Church ladies' Missionary group on Thurs. night. The Cobocank ladies were treated to a delicious buffet dinner about 7 p.m. after which a time of singing, quizzes and fellowship followed.

Mrs. Jean Weeks is home after several days as a patient in Ross Memorial Hospital. Mrs. Mildred Baldwin has been a patient in Ross Memorial Hospital for a week. We wish our friends improved health and trust you will soon be as chipper as ever.

Jessie Cameron opened her home for a stork shower for Susan Archer of Norland, on Wed. evening. The church ladies of Faith Tabernacle, relatives and some of her Norland friends gathered to present Susan with a lot of lovely gifts for the upcoming event.

School children were out collecting for UNICEF last night (Fri.) If you missed the canvassing, contact Jim Hopkins at the Public School. I'm sure any donation is welcome.

With standard time going into effect this weekend, it means darkness will descend on us an hour earlier. Watch for little folks who are really not careless, but carefree, and do not think like we adults. We would not want to have any accidents happen.

Mrs. Shirley Fountain and son Wayne, have been Moose hunting and visiting friends at Thunder Bay.

On Sun., Oct. 23, the choral group of New Horizon's sang at Powels Corners United Church. It was their anniversary and a special occasion for all concerned. On Wed. evening, Oct. 26, the choral group sang at Victoria Manor in Lindsay. The singers dressed in costumes and the Manor residents also were attired in Halloween costumes. There was dancing and a lunch followed a most enjoyable evening. Isn't it good to share fun and fellowship with these confined to these places? Those who make their home at the Manor are usually limited in their ability to travel far, some have very few visitors and time must go slowly. Of course, there are some very active and creative, but for some there is much loneliness.

On Nov. 6 the group sang at Providence Church our near Bobcaygeon. Remember the See page 15

roll the balls in melted mixture then set back on wax paper. This sets quickly and 1 square and 3 slivers wax does about 14 chocolates.

Hope you like your candy. My family loved them. Adios and take care now.

Maple Lake News

by Ada Gibbs

sometimes I am the last to know who is ill, or dead.

Did you know that Christmas is only 52 days away. I shudder when I think about it.

Mr. & Mrs. Arnold Coulter are visiting with Mr. & Mrs. Ray Rivers at Downsview this week.

Mrs. Annie Dawson is home again after spending some time with the Jim Dawson's in Ottawa.

If wrinkles must be written upon our brow, let them not be written upon the heart. The spirit should not grow old.

Mr. & Mrs. Fred Wright spent last week with the Ted Johnson's in Scarborough.

Mr. Roy Windover is in Mt. Sinai Hospital, Toronto at present and doing well.

It is with regret we learn of Mr. Royce Miller leaving for Edmonton this coming weekend. Our loss, Edmonton's gain.

I enjoyed my first hockey of the season at the arena last Saturday afternoon. Boy what a game. For two and a half periods it was a duel between goalies, then Minden got a goal. By the way, the game was between Sunderland and Minden Atoms. I came home after the first goal.

If your Geraniums are not doing too well since they were brought into the house, try this: 1 tsp. Epsom salts to 1 qt. water, or about 1 tsp. to a gal. of water. This seems to revive them at any time and the blooms are better.

One program I try not to miss in the afternoon is "Celebrity Cooks" at 3:30 p.m. Last Friday Ed Broadbent, federal N.D.P. leader was on and he made a comment I agree with. He said that the wives of prominent politicians should be left alone by the news media, to live private lives, as they have enough to put up with, having their prominent husbands in the news so much.

Do you like chocolates? Here is a recipe that makes a lot and you could give them at Christmas: 1/2 cup well mashed potatoes; 1 tsp. vanilla; 1/4 cup soft margarine; 1 1/2 or 2 lb. icing sugar; mix and add icing sugar until mealy, but soft enough to roll. Divide and mix to suit

self. I make some with chopped walnuts; some with chopped coconut; some with chopped cherries; and color some, roll into small balls, set

on wax paper. Melt 1 square semi-sweet chocolate with some slivers of paraffin wax, keep stirring. Using a fork

roll the balls in melted mixture then set back on wax paper. This sets quickly and 1 square and 3 slivers wax does about 14 chocolates.

Hope you like your candy. My family loved them. Adios and take care now.

Horticultural Society holds a card party

Kinmount - The Kinmount and District Horticultural Society held a successful card party at the Community Hall on Oct. 20.

The hall was decorated with candles, fall leaves and Jack-o-Lanterns, which were cleverly carved by Herbert Fischer.

Ambrose Watson won the men's "high" prize and also a lucky draw. The men's "low" went to Shaun Silver.

Irene McNamara and Margaret Hocking tied for ladies "high" with the cut going to Margaret Hocking. The ladies' "Low" went to Marion Sweetland, and the Lone Hand prize to Garland Barkwell. Ross McKerr won the second lucky draw and the Jack-o-Lanterns were given to those who wanted to take them home. The evening ended with a buffet of homemade cakes and sandwiches.

Kinmount Legion news and notes

Sunday, October 23 was such a beautiful day that almost one hundred members, involving twelve branches of Zone F4, attended a rally at the Kinmount Legion Hall.

The meeting was opened by Zone Commander, Douglas Worrall. President, Albert Crego, and Reeves Maurice Watson and Carl Brickman officially welcomed the guests.

The business of the meeting, including executive and branch reports, was conducted by Zone Chairman, John Dayman. Kinmount's report, read by secretary Maxine Cross, included mention of the following:

"The purchase of a new bulletin board has improved the appearance of the hall. A new membership board to match is on order. The Ladies Auxiliary have, as usual, contributed to our financial success with a donation of \$1,500.00. Our steward has started a "Pot of Gold", which is also making extra money for our branch. Our branch, while not as prosperous as usual at this time of year, is still stable, with no outstanding debts.

Our charities included the Crippled Children, The Cancer Society, The Salvation Army, Kinmount Horticultural Society, The Haliburton Pipe Band, plus a couple of needy cases in Kinmount.

We have held a district euchre, a Drumhead Service for the Zone, a Warrior's Day Parade, and we are now planning our Remembrance Day Parade and church service.

Our Legion grounds have been very colorful this summer due, largely, to one member who has planted trees and flowers around the building. We hope to continue this improvement next year. Each Saturday afternoon, the members and their guests turn out for a game of darts.

We wish to thank our comrades who turned out to make all our events a success."

It was decided that the next Zone meeting will be held in Lindsay with the date to be announced later.

Commander Worrall thanked the Host branch, and then asked Deputy Zone Commander, Ray Russell, to handle the closing ceremonies.

A buffet supper, prepared by the Ladies Auxiliary, was available to the guests after the meeting.

Lloyd Knight of the Meryle Dolan Evangelistic Crusade provided much of the music for the event which has been held over the past week in Harcourt and Wilberforce. The crusade ended Sunday night

From the Chamber

BY BOB STINSON

The executive of the board of directors of the Chamber have now met and have appointed directors as chairmen of the following committees: Finance, Business Development, Tourism, Governmental Affairs, Promotion and Advertising. There are also chairmen for the Task Force Committees of Outreach Office, Craft Centre, Downtown Renewal, Snowmobile Assoc. Liaison, and Cross Country Ski Club Liaison. As we have said before, we encourage participation in the Chamber by the membership and any members having an interest in any of the foregoing areas is welcome to contact our office and we will put you in touch with the particular committee chairman that is in your interest area.

We are pleased to welcome this week Keith Stephenson to our business community and we certainly wish him every success in the Highlands. Many of you who were at our annual meeting may have met Keith there, as he took the trouble to drive all the way up from the city to attend. Keith is the proud new owner of the Haliburton Golf Club on Lake Kashagawigamog. He has many ambitious plans for the future including a brand new club house and licensed lounge and the additional nine holes that have been under construction will be finished. Keith was undecided at this time whether it will become an eighteen hole golf course or a new nine hole golf course plus turning the old nine holes into a par 3. Whatever the decision we are sure the new improved Haliburton Golf Club will be an asset and an attraction for this area.

Construction crews are now putting the finishing touches on the initial stages of the work on the bypass at Minden. A base layer of pavement is now being applied to all areas where work has been done, and no more major work will be attempted from now until spring. It would appear that the worst of the mess is over and that the Minden area can look forward to next summer with everything well cleaned up

just how much vandalism has been taking place. For instance, consider a write-up in our last issue, and this is just one of the few. A total of \$1,135 damage to Curry Motors car lot on Highland Street in Haliburton when vandals smashed car mirrors, kicked the vehicles and took emblems and gas caps. In all there was much damage done to several of their vehicles. More damage was also reported at Curry Motors Body Shop and various parts were taken from the engine area of a truck on LaRue Motors lot. Some people are really hard up for entertainment.

Still on the subject of this sick society that we are living in, we sometimes wonder if we are doing enough for our young people who are coming up in this age of a world that seems to be in a turmoil. We have the facilities in most of our communities but do we have enough organizations or people who will come forward and give a helping hand. Some people will say that the trouble lies in the home life of these children, while others say that the young people are not interested in organized sports or recreation. It is our opinion that we have to get back to church, start reading our Bibles more and get to know the Lord better. Let's all make sure that we get our children out to Sunday School because it is here that the foundation is laid so that they may grow up in a Christian community. We are looking for solutions to all of these problems but have we really looked in the right direction.

Count on your Shell Agent for warm, personal home comfort service.

Your Shell Agent has the home comfort program and the home comfort people to keep your home warm right through the winter

Your Shell Agent always delivers—right on schedule.

Call your Shell Agent and arrange to have your heating oil delivered automatically. Calculating from daily temperatures as well as your fuel consumption record, he'll deliver on schedule to make sure your furnace always has enough oil on hand. So your home stays warm the whole winter.

Count on your Shell Agent for round-the-clock repair service.

Call your Shell Agent or his authorized service man if something goes wrong with your furnace, no matter what time it is—day or night. He'll have your unit repaired fast. And restore your home's level of comfort

Equal Monthly Billings are comfortable to live with.

Call your Shell Agent to arrange Equal Monthly Billings, spaced over 10 months. It doesn't cost you anything. There's no interest charged. Best of all, your fuel bills remain constant during the winter months when other bills tend to mount up. Make arrangements for an "Automatic Cheque Plan" and you won't even have to write a monthly cheque

Remembrance Day

From page 7

veterans and their dependents.

Remembrance Day services will be held in the Legion Hall at 10:00 a.m., on the morning of Nov. 11, with the parade moving off at 10:45 for the ceremony at the cenotaph. Everyone is cordially invited to attend both of these services. Each year sees our veterans a little older and our ranks a little more depleted and it becomes a little harder to remember. Most of us now are too young to remember, but we can think for a few moments on this day and be thankful for this great land in which we live. Whatever its problems it is still the best there is. The young men of two generations thought so too, and at this time of the year we pause to pay tribute to those who gave their tomorrows that we may have today.

REMEMBRANCE DAY
Remembrance day
We should pray
For those who died
For you and I.

People fought day and night
And some people fought and
Lost their sight.

Some people died.
And some people lived
And some people were lucky
Like you and I.

Jenny Comier, Age 11.

NOTE: Jenny is the granddaughter of Lloyd and Hazel Whittaker of Haliburton.

**REMEMBRANCE DAY
THOUGHT**

The poppies grow in Flanders
Fields.

Where Canadian soldiers tread.
They left their homes in Canada
But soon so many were dead.

If they had known, would they have gone
To give their lives so willingly
That today, wars continue on
Here at home and across the sea.

Long ago before we were born,
Canadians fought a deadly war,
So many fought but did not win,
Their lives they lost, they're here no more.

We can't forget the ones who lived,
Men with wounds, still in pain today,

Their handicaps show us this
That for our freedom they still pay.

The small red poppy that we wear
Each year around Remembrance Day,
Has special meaning for us all,
It's time to stop and think and pray.

Stop for a moment where you are,
Think, because you can't remember,
Pray that war will come no more,
This eleventh of November.

Margie Newton.

NOTE: Margie is the daughter of Mr. & Mrs. Alvin Newton of Ingoldsby.

Obituary

From page 6

Grant; Keith and Karl, of Wilberforce. Predeceased by sons Clarence and Harry. Survived also by 27 grandchildren and 26 great grandchildren.

She was a life member of St. Margaret's Church, Wilberforce and Monmouth Senior Citizens. Her regular attendance and ready smile will be missed by both.

Officiated by Rev. George Meades, the funeral service was in St. Margaret's Church on October 28 under the direction of Hattin Funeral Home. Pallbearers were six grandsons, Arthur and Norman Grant; Donald and Larry Tallman; Richard Tallman and Ronald Wood.

Interment was in Wilberforce Cemetery.

THE CORPORATION OF THE
TOWNSHIP OF LUTTERWORTH

Requires a

CLERK-TREASURER and TAX COLLECTOR

Applications will be received by the undersigned until Monday, November 14th, 1977, at 5:00 p.m. for the above noted position. Applications must be sealed and clearly marked as to contents.

Applicants who have had Municipal experience or who have completed or are enrolled in the A.M.C.T.O. course will be given preference. Salary is negotiable.

Applications should contain a detailed resume of all qualifications and experience.

Mrs. B.A. Millar,
Clerk-Treasurer,
P.O. Box 176,
Minden, Ontario
KOM 2K0

CORPORATION OF THE TOWNSHIP OF LUTTERWORTH

TENDER FOR MUNICIPAL GARAGE

Sealed tenders on forms supplied by the Township, clearly marked as to contents, will be received by the undersigned until 5:00 p.m. local time on

**MONDAY, NOVEMBER 14th,
1977**

for the supply and erection of a frame, metal-clad building, approximately 40' x 64', located on part of Lot 5, Concession 12, in the Township of Lutterworth.

Plans, specifications and tender forms may be obtained from the undersigned for a fee of Fifteen Dollars (\$15.00), which is non-refundable, at the Lutterworth municipal offices, located on the west side of Highway #35, three miles south of Minden.

A certified cheque in the amount of 10% of the tender price must accompany each tender, and the successful bidder will be required to provide a 100% Performance Bond within ten (10) days of the date of the acceptance of the tender by Council.

Tenders will be opened publicly at the regular meeting of Council to be held on Tuesday, November 15th, 1977, commencing at 10:00 a.m. at the Lutterworth Municipal Offices.

The acceptance of a tender by Council is subject to the approval of the Ministry of Transportation and Communications.

The lowest or any Tender may not necessarily be accepted by Council.

Mrs. B.A. Millar,
Clerk-Treasurer,
Township of Lutterworth,
P.O. Box 176,

**Here is a Business Management
Seminar on two very common
problems faced by rapidly
growing Small Businesses**

Cash Flow Difficulties

Whether or not to Incorporate

These two finely dressed people were among the many to enjoy the annual Halloween party at Extencicare. The party, which was attended by a number of the residents, was held on Friday night.

Along the Trails

From page 9

In the recent elections in Manitoba the Honorable Minister was roundly defeated in his own riding, and his Party was turned out of office. We like to think that the discouraged snowmobiler of Manitoba has shown how much of a nuisance he can be at the polls.

WHERE WILL YOU RIDE

The Haliburton County Snowmobile Association recently announced that it will issue a special deal to all members this year. The new deal will identify members' machines for the 1978 snowmobiling season and will ensure uncontested access to all HCSA-maintained trails.

Section 22 (subsection 1) of the Motorized Snow Vehicles Act states that "Every person who knowingly or unknowingly trespasses on land while operating a motorized snow vehicle is guilty of an offense and on summary conviction is liable to a fine not exceeding \$500."

Subsections 2, 3, 4, and 5 deal with the defence against

trespass and state quite simply that written permission from the land owner or occupier is the only defence except where the land is unpatented Crown land.

Written permission given to a club or association shall be deemed to have been given to each member thereof.

Written permission for the public in general, given to a club or association that is in receipt of public money, shall be deemed to have been given to the public in general.

It must be pointed out that certain trunk line trails maintained under contract with the Ministry of Natural Resources are termed public and therefore open to the general public. All other trails maintained by the Association are open only to members and guests of members. The use of such trails by the general public is a contravention of the Act and a punishable offence.

It is up to each snowmobiler to be aware of the status of the trail he is using. The surest way to be on safe

ground is to take a membership in the Association. Put the sticker on your windshield and ride with confidence.

WHO'S FOR A LONG TRIP?

This writer last year travelled from Haliburton to Eganville and back with four very compatible companions. The round trip was 354 miles and took three days. It was a most memorable adventure and we are just waiting for the conditions to be right to do it again in another direction.

Just recently we learned that three snowmobilers from Cornwall had been in Eganville a few days before us on a six day trip that took them as far west as Barry's Bay and Bancroft. Their round trip was 640 miles.

We are going to stick our necks away out and offer to help you plan your trip for this winter. We may not be able to go along unless your trip can be fitted into our very tight schedule, but we do intend to enjoy at least one good one come February. We're at R.R. 2, Haliburton. KOM ISO.

Maple Lake

From page 10
weekend with Alison's parents, the Bill Chambers.

Mr. & Mrs. George Bunn are off on an extended vacation to St. Petersburg, Florida. We're going to miss Marnie on the Tuesday night bowling league.

Jessie and Fred Prentice called on relatives and friends last Friday before leaving Bridgford for their winter home in Melbourne, Florida.

Miss Cindy Chambers left by train from Orillia last week, for Fort McMurray in northern Alberta, where she plans to spend the winter with Mr. & Mrs. Lorne Gibbs. We hope you enjoy the north, Cindy. Have a good time.

Miss Ada Gibbs visited in Gooderham last Thursday with Mrs. Audrey Prentice. Also with Mr. & Mrs. Allan Madill and Mrs. Mary Hadley.

Wardens speak

From page 1

counties in the area. Miss Winchester said that it is a thrill to be associated with a county council at this time of change and progress. William Dome, warden of Peterborough County offered his congratulations to Mrs. Bob Vick for putting up with the long hours of work her husband has gone through during this year as warden. He noted that Haliburton County is a leader in realizing the importance of tourism.

Wedding Anniversary

Leslie and Lorna Hogg, on the occasion of their 25th Wedding Anniversary, wish to have their friends and relatives celebrate with them on this happy occasion. Dance to be held November 5th, 9 p.m., at Minden Community Centre.

Thank-You

We wish to express our deep appreciation for the lovely flowers, cards and donations to the Heart Fund sent in memory of our dear Mother and Grandmother, Reta Mitchell.

Our sudden loss is hard to accept but it has been made easier by the love and comfort given by our families and friends.
A special thank you to Jane and Emile Duchene for taking such good care of our son Mark during these past few weeks.

Sincerely,
Carol & Lyle Stamp & Family.

A very sincere thank you to relatives, friends and neighbors for their acts of kindness, messages of sympathy, floral tributes, memorial tributes during the loss of a dear husband, father and grandfather, Lorne Barry, who fought and suffered a very long illness.

Special thanks to G. Monk and staff of John Welch & Son Funeral Home and to Rev. Miller of Minden. Also to Rev. John Smith of Haliburton for their messages of comfort.

Horticultural society elects first executive

Minden - Elizabeth Carrell was elected president of the newly formed Minden and District Horticultural Society.

Vice president is George Tipton, second vice president Amos Brubacher, and Anna Hurtt, Mabel Hewitt, Marg Lonsberry, Edna Tipton, Cliff Burke, Norena Burke, Gwen Cox, Brian Sisson, Irene Moore and Pat Campbell were named directors.

From the directors Irene Moore was named secretary-treasurer.

Cross country ski news

After a year of enthusiastic support for cross-country skiing in the Haliburton area the club executive felt that expanded facilities would be needed and appreciated for the coming season. Last year's cutting of the Glebe Park trail proved that there is no problem getting good volunteer help, but volunteers can only be expected to contribute so much. Obviously club funds are limited, so we decided to apply for government funding to build and groom additional trails.

In the spring an application was submitted to the provincial WINTARIO program requesting a non-capital grant of \$2,000 to construct approximately 50 km of trails and a capital grant of \$2,100 to build shelters along the trail. Right now the application is on the third desk at Queen's Park. We assume that this means it still has a chance for approval. Wintario grants for the Haliburton area provide 50% of a project's funds. We indicated in our submission that the other 50% would come from the club funds and volunteer labour so your help may be needed.

87 occurrences

Minden - Members of the Minden detachment of the Ontario Provincial Police investigated 87 general occurrences and six motor vehicle collisions during the week of October 24 to 30.

During that time there were eight break-ins reported

three persons charged with liquor violations and one person charged with impaired driving.

\$210 taken in break-in

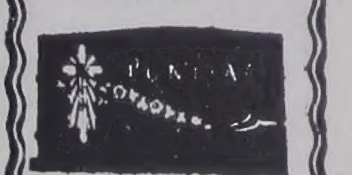

Haliburton - Members of the Minden detachment of the OPP are investigating the theft of \$210 in cash and bills for gasoline from Haliburton Marine.

The OPP report that the building was entered by forcing a door.

There was \$25 damage to the door.

The occurrence took place the evening of Oct. 27 or 28.

for love, for remembrance, forever

Report from Queen's Park

BY MPP JOHN EAKINS

There has been considerable debate in the Ontario Legislature on the subject of the planned lay-off of 2,800 Sudbury workers by Inco which is predicted will actually mean a loss of some 6,000 jobs in the Sudbury area. One reason put forward for this loss of employment is the fact that Canada and Ontario's share of the world nickel market has dropped rapidly in recent years, as other areas have developed their deposits. In 1966 this country's share of the market was 51 per cent; it had declined to 34 per cent by 1975. Opposition Parties have urged that the Legislature's Committee on Resource Development should go to Sudbury to hear local submissions and to discuss the matter with municipal and labor officials.

Replying to a question from Liberal John Sweeney (Kitchener-Wilmot) the Minister of Housing admitted that the Government will make a profit of \$3 million on a \$5 million investment in land in Kitchener. The land was bought for \$750,000, servicing costs were \$4,350,000, and the selling price is \$8,070,000. Opposition Parties condemned the Government as the largest speculator in the Province. The Minister said it was government policy to sell off at market prices the 23,000 acres which it bought over the years for land banks to provide low cost housing.

House leaders of all parties have been meeting to organize a Select Committee on Ontario Hydro, and establish its terms of reference. The Liberal view is that the entire operation of Hydro should fall within the scope of the committee, including the extent of direct Government control over the Crown Corporation and such currently controversial matters as the over-runs on the Bruce County heavy water project cost. Liberal Leader, Stuart Smith, believes that the committee should be able to call expert witnesses and employees from such projects.

It is thought that there may be some overlap with this Committee's work and that of the Porter Commission on Hydro's long range planning, which is intended to deal with Hydro projects from 1985 onward. Further development of nuclear plants in the province will obviously be of interest to both groups.

Questions on the subject of the Bruce heavy water cost over-runs were asked in the House this week. When the Minister turned aside requests for cost and progress reports, Stuart Smith charged that he was out of touch with the problem, and should consider resigning. He said "You are talking about a \$400 million (cost) over-run and you stand in this House and say, day after day, that you don't know what we are talking about."

On a more positive note, Ontario Hydro spokesmen have indicated that there should be no repetition this December of power shortages that led to province-wide voltage cuts and interruption of service to some industries in the pre-Christmas period last year. Hydro expects to have about 3400 megawatts of generating capacity in reserve when the period of peak demand is reached in mid-December.

Liberal MPP Remo Mancini (Essex South) has introduced a Private Member's Bill calling for the legal drinking age to be raised to 19 years, in the hope that such a change in the law would "remove the practice of drinking from the province's high schools." Such a move was recommended by the Select Committee on Highway Safety and recommended by a task force investigating teenage drinking in the spring of 1976. A 1976 Addiction Research Foundation Survey showed that among a sample of 1,439 high school students in Ontario, 86 per cent drank, although less than 25 per cent were of legal age.

It has been disclosed that a Mississauga cement kiln has been regularly burning high toxic wastes for about two years, without public knowledge, but with the approval of the Ministry of the Environment. This burning practice was started, as an experiment, and in 1975 a ministerial certificate was issued to permit its continuance. The Ministry hopes to have an opportunity to explain exactly what is involved before burning is

resumed some time before the end of this year.

There have been rumours that some 100 provincial police officers were going to be laid off. However, the Solicitor General stated, during debate on the Estimates, that Ontario has no intention of reducing policing in the province.

The Ontario Government intends to advertise Minaki Lodge in trade journals. This very expensive, and controversial, tourist project in North Western Ontario, is now up for sale. The Minister of Industry and Tourism told the legislature that the decision to sell has been made because to finish the work would cost a further \$8 million on top of the \$10 million which has already been spent.

From the Chamber

From page 12

and no major disruptions. I would like to say thank you to Murray Kuno for seeing to it that the direction signs at the junction are now replaced. Tourists have experienced some difficulty over the past few weeks trying to find their way to Haliburton Village.

I would like to remind you once again that the F.B.D.B. small business seminar is coming up on November 10 at

PineStone and as before we urge everyone in business to consider attending this very worthwhile session. They have mailed invitations to all of our members and in addition to that their advertisement is now appearing in the papers.

Due to holidays the Chamber column for the next two weeks will not be written by ourselves. Victor Godin, who

is the editor of Exchange, the Ontario Chamber magazine, writes an editorial in each issue. For the next two weeks in this column space we will pass along one of Victor's editorials which we feel is relevant. We invite you to read them and enjoy them.

The following is a poem which was part of the address by 'Speck Turner' at our annual meeting. We asked him for a copy of it so we could reprint it here for you. See you in three weeks.

If you want to live in the kind of town
Like the kind of a town you like,
You needn't put your clothes in a grip
And go on a long, long hike.
You'll only find what you left behind
Cause there's really nothing new;
It's a knock at yourself when you knock your town
Because it isn't the town - it's you.

Real towns are made by men afraid
Lest someone else gets ahead
And if everyone work and nobody shirks
You can raise a town from the dead.
Then, while you make your personal stake
Your neighbor should make one too;
You can make your town what you want it to be
Cause it isn't the town - it's you.

LEASING & RENTAL

VERY LITTLE DOWN WHEN YOU LEASE A NEW CAR FROM US

That's because your deposit on a new leased car can be substantially less than what you'd put down to buy a new car. What's more, you'll never fret over what your lease car is worth at trade-in time because your car will never get too old.

Each monthly leasing payment also covers such costs of enjoying a new car as financing, depreciation, taxes.

There are other solid reasons for leasing a new Chevrolet from us. So, come on in. Let's discuss the lease plan ... and that new Chevrolet ... that fit your needs.

And your pocketbook.
